

APPENDIX 5.2G

## Records of Conversation

---

# **CH2MHILL** TELEPHONE CONVERSATION RECORD

**Call To:** Anna Holmes

**Phone No.:** (209) 948-7163

**Date:** June 5, 2008

**Call From:** Michael Clary/SAC

**Time:** 10:00 AM

**Message**

**Taken By:** CH2M HILL

**Subject:** Vacaville Energy Center

I contacted Anna Holmes, Biologist with the California Department of Fish and Game Region 3 to advise CDFG of the project and to solicit feedback from CDFG on biological concerns. I advised Ms. Holmes that Swainson's hawk and western burrowing owls had been reported to occur in the vicinity of the project, and she relayed that CDFG's review of the project would include an examination of efforts to avoid, minimize, and/or mitigate for take of these and any other identified State recognized special-status species.

# CH2MHILL TELEPHONE CONVERSATION RECORD

**Call To:** Jana Milliken

**Phone No.:** (916) 414-6645

**Date:** June 23, 2008

**Call From:** Michael Clary/SAC

**Time:** 9:00 AM

**Message**

**Taken By:** CH2M HILL

**Subject:** Vacaville Energy Center

I contacted John Cleckler, Biologist with CH2M HILL assigned to the US Fish and Wildlife Service Sacramento Office to determine appropriate avoidance measures related to potential federally listed vernal pool branchiopod habitat near the VEC site. On June 25 I sent photographs of the basin and a narrative description of the basin to Mr. Cleckler, who relayed my request to Michelle Tovar of the USFWS Sacramento Office.

On July 1 Mr. Cleckler called to report that he had been in contact with Ms. Tovar, who advised that the USFWS would require a request for technical assistance.
