Dear Cendrine:

In response to your inquiry to the Vacaville Heritage Council there are not any structures of historical note within your project area. The map is not detailed enough to see clearly but there appears to be a creek running through section 30, if this is the case, Indian artifacts and remains are often found along the creek banks in this area.

If you need additional information please contact me by email.

Thank you,  
Carole

Subject: Vacaville Energy Center Literature Search

Dear Leigh,

CH2M HILL is assisting Competitive Power Ventures, Incorporated (CPV) with the preparation of an Application for Certification (AFC) before the California Energy Commission (CEC) for a new power plant to be located in rural Solano County, near the City of Vacaville. The project will be located adjacent to the City of Vacaville's (City's) Elmira wastewater treatment plant, on land that is owned by the City and lies within Vacaville city limits and is to be called the Vacaville Energy Center. Please see the enclosed study area map (T6N R1E Section 30, Elmira 7.5 Minute USGS quadrangle).

We request you conduct a standard Records Search for the facility by performing the following tasks (within/inside the dashed line). ***Please note that per CEC requirements, I am requesting full copies of DPR forms within the literature search area as well as previous technical reports that occur partly or wholly within ¼ mile of the project.***

- Check NRHP and CRHP listings (if any NRHP or CRHP properties are present – provide copies of all pertinent inventory/nomination/registration forms).
- Check “determined eligible” listings for the NRHP or CRHP; provide copies of pertinent forms as appropriate.
- Check all other state and local listings for the presence of historic buildings, structures, landmarks, points of historical interest, or other cultural resources; provide copies of pertinent forms/documents as appropriate (HPDF records).
- Check for presence of known/recorded archaeological sites (historic and/or prehistoric); provide copies of inventory forms/Primary Record Forms as appropriate.
- Provide a bibliography of all reports, surveys, excavations, inventories, studies, etc., within the 1-mile boundary CHRIS search area marked on the attached quadrangle map. Provide a copy of all reports, surveys, excavations, inventories, studies, etc. within the boundary CHRIS search area marked on the attached quadrangle map.
- Annotate and return the map showing locations of known/recorded/registered cultural resource sites (archaeological sites, NRHP or CRHP historic properties, etc.) and mapped polygons for previously conducted surveys, inventories, and other studies.

Due to schedule constraints, we request that you conduct this search on an **expedited** priority basis.

**SPECIAL NOTE:** Upon completion of the Records Search, please use our Federal Express Account number #1035-3920-0 to ship the search results to me at the address listed below. If possible, please also note on the airbill form, CH2M HILL Project Number 370668.AP.DR.CR. If you have any questions, please call me at 714-435-6140 or 949-500-2496.

**RE: Proposed Vacaville Energy Center Project, Solano County**

Dear Mr. Helton:

A record search of the sacred land file has failed to indicate the presence of Native American cultural resources in the immediate project area. The absence of specific site information in the sacred lands file does not indicate the absence of cultural resources in any project area. Other sources of cultural resources should also be contacted for information regarding known and recorded sites.

Enclosed is a list of Native Americans individuals/organizations who may have knowledge of cultural resources in the project area. The Commission makes no recommendation or preference of a single individual, or group over another. This list should provide a starting place in locating areas of potential adverse impact within the proposed project area. I suggest you contact all of those indicated, if they cannot supply information, they might recommend others with specific knowledge. By contacting all those listed, your organization will be better able to respond to claims of failure to consult with the appropriate tribe or group. If a response has not been received within two weeks of notification, the Commission requests that you follow-up with a telephone call to ensure that the project information has been received.

If you receive notification of change of addresses and phone numbers from any of these individuals or groups, please notify me. With your assistance we are able to assure that our lists contain current information. If you have any questions or need additional information, please contact me at (916) 653-4038.
