

1.0 INTRODUCTION

The City of Vernon (City) submitted an Application for Certification (AFC) to the California Energy Commission (CEC) for the construction and operation of the Malburg Generating Station (MGS or Project) on December 21, 2001. The CEC staff reviewed the MGS AFC for data adequacy and provided its recommendations on January 16, 2002. The responses to the CEC's data adequacy review of the City's Application for Certification for the Malburg Generating Station Project were submitted to the CEC in May 2002. The AFC was deemed complete and CEC began review of the AFC on May 8, 2002. Pursuant to Title 20, California Code of Regulations, Sections 1716 and 2025, the CEC requested additional information specified in the data requests dated May 23, 2002. A response was submitted by the City on June 19, 2002 for the information requested by the CEC in the data requests for the City's Application for Certification for the Malburg Generating Station Project. This document provides supplemental information to those responses as well as responses to comments received from the CEC siting staff during the Informational Workshop and Hearing held on July 1, 2002.
