***P3a. Description** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

These structures are three separate single-family units that are owned and operated as a single multi-family dwelling. The structures are cross-gabled, with roof material that consists of asphalt/composite shingle. A hipped-roof protrudes from the gabled wall over the front and side entryway porches. Windows are one-over-one, double hung sash in wood framing. The exterior of each is sided with horizontal weatherboarding, and condition is good to excellent.

The setting is small scale single- and multi-family residential. The duplex fronts on both Randolph Street and Newell Street and is surrounded by other residential structures. The Union Pacific Railroad right-of-way runs parallel to Randolph Street, above-grade, immediately across from the house.
