Subject: Victorville 2 Power Plant-
MGS Trapping Variance

Howdy Steve,

The Department concurs with your proposal to modify Spring 2006 Mohave ground squirrel (MGS) surveys as outlined in the attached Plan of Work for the Victorville 2 Power Plant. You have adjusted the grids to best fit the property and to ensure that the habitat most likely to have MGS is covered.

Please use this e-mail and the attached Plan of Work as your written approval of the survey variation from the Department of Fish and Game.

If you have any further concerns or question on this issue, please feel free to contact me at (760) 955-8139.
