Notice of Efficiency Committee Workshop on Draft 2013 Building Energy Efficiency Standards

California Energy Commission staff will conduct two workshops to present draft revisions to be considered for inclusion in the *2013 Building Energy Efficiency Standards* (Standards) (California Code of Regulations, Title 24, Parts 1 and 6). These workshops will be used to solicit public comment on proposed draft revisions to the Standards. Draft revisions apply to administrative requirements, requirements that would apply to all building types and requirements that apply solely to nonresidential buildings and to residential buildings.

Commissioner Karen Douglas is the presiding member of the Efficiency Committee. She and other Commissioners may attend and participate in this workshop. The workshops will be held:

THURSDAY, OCTOBER 13, 2011

9 a.m. – 5 p.m.

CALIFORNIA ENERGY COMMISSION

Remote Attendance

Internet Webcast: Presentations and audio from the meeting will be broadcast via our WebEx web meeting service. For details on how to participate via WebEx, please see the “Remote Attendance” section toward the end of this notice.

Availability of Documents

This notice, the workshop agenda, and other related documents will be posted to the project website at www.energy.ca.gov/title24/2013standards/prerulemaking/documents/. Please check the website periodically for additional information. Interested persons may sign up on a list server at that website to receive email updates about the proceeding to update the Standards.

Purpose

At this workshop, staff and the Energy Commission’s technical contractors will present draft revision language to be considered for possible inclusion in the *2013 Building Energy Efficiency Standards*.

Workshop participants will have an opportunity to ask questions about this information and to make comments and suggestions.

Background

The Energy Commission is conducting a public process to consider and ultimately adopt changes to the *Building Energy Efficiency Standards* contained in the California Code of Regulations (CCR), Title 24, Part 6 (also known as the California Energy Code), and associated administrative regulations in Part 1 (collectively referred to here as the Standards). The proposed amended Standards are expected to be prepared for adoption in 2012 and would become effective in 2014.

Energy Commission staff has worked collaboratively with a number of stakeholders on the recommended draft revisions to the Standards, including the California investor-owned utilities’ statewide Codes and Standards programs and the Energy Commission’s technical contractors.

Further information regarding the policy goals of the *2013 Standards* update can be found at www.energy.ca.gov/title24/2013standards/prerulemaking/background.html.
