### Construction Inspection

1. Instrumentation to perform test includes, but not limited to:
   a. Differential pressure gauge

2. Test preparation
   - Disable discharge air temperature reset sequences to prevent unwanted interaction while performing tests

3. Documentation of all discharge static pressure sensors including (check one of the following):
   a. Factory-calibrated (proof required)
      - Factory-calibration certificate
   b. Field-calibrated
      - Calibration complete, all pressure sensors within 10% of calibrated reference sensor

### Certification Statement:
I certify that all statements are true on this MECH-7-A form including the PASS/FAIL Evaluation. I affirm I am eligible to sign this form under the provisions described in the Statement of Acceptance on form MECH-1-A
