Re: City of Fremont Green Building Ordinance and Building Energy Efficiency Standards

Dear Ms. Jones,

On November 23, 2010, the Fremont City Council considered a new Green Building Ordinance and the requisite Energy Cost Effectiveness Study at their regularly-scheduled meeting. The Council at that meeting adopted the Ordinance as well as a resolution of cost-effectiveness.

As requested by Commission Staff, I am writing to confirm the City of Fremont's commitment to enforce the Title 24 Building Energy Efficiency Standards incorporated into our Green Building Ordinance.

If you have any questions regarding the Ordinance, please contact Dan Schoenholz of my staff at 510-494-4438.

Sincerely,

Bob Beyer
Interim Community Development Director
