

As a licensed Professional Engineer in Mechanical Engineering with HVAC experience, I am concerned that Docket 10-BSTD-01, "Proposals For Certification of Acceptance Testing Field Technicians For Mechanical Systems and Lighting Controls" will restrict me and other qualified individuals from conducting testing of HVAC systems and require me to unnecessarily hire firms that meet the overly restrictive definition of qualified testers contained in this proposed action

I respectfully ask you to reject this proposal that seems to unnecessarily favor particular type firms instead of letting all qualified firms and individuals compete for this business.

Thomas Hendrey

Mechanical PE M33235
