

**[City of Vacaville] Re-roof Cool Roofs
CEC reg. 149 (b) 1 B**

[City of Vacaville] Cool Roofs over the counter permit handout for low slope (2:12 slope or less) Nonresidential re-roofs (where more than 50% of the roof is re-roofed or more than 2000 sf, whichever is less). Applies to all non-residential re-roofs over conditioned space except “I” occupancies (jails, hospitals, etc). Note that Hotels and Motels are also exempt.

Re-roof Cool Roof products may come in the form of modified bitumen, built up roofing, single ply thermo plastic, fluid applied roofing, coatings, or something else. All products shall have at least 0.70 initial reflectance and 0.75 initial emittance and a CRRC Product ID number. All re-roof products must be labeled as indicated below:

	<table border="0"> <tr> <td></td> <td align="center"><u>Initial</u></td> <td align="center"><u>Weathered</u></td> </tr> <tr> <td>Solar Reflectance</td> <td align="center">0.70 Min</td> <td align="center">Pending</td> </tr> <tr> <td>Thermal Emittance</td> <td align="center">0.75 Min</td> <td align="center">Pending</td> </tr> </table>		<u>Initial</u>	<u>Weathered</u>	Solar Reflectance	0.70 Min	Pending	Thermal Emittance	0.75 Min	Pending
		<u>Initial</u>	<u>Weathered</u>							
Solar Reflectance	0.70 Min	Pending								
Thermal Emittance	0.75 Min	Pending								
<table border="0"> <tr> <td>Rated Product ID Number</td> <td align="center">XXXXX</td> </tr> <tr> <td>Licensed Seller ID Number</td> <td align="center">XXXXX</td> </tr> <tr> <td>Classification</td> <td align="center">Production Line</td> </tr> </table>	Rated Product ID Number	XXXXX	Licensed Seller ID Number	XXXXX	Classification	Production Line				
Rated Product ID Number	XXXXX									
Licensed Seller ID Number	XXXXX									
Classification	Production Line									
<p>Cool Roof Rating Council ratings are determined for a fixed set of conditions, and may not be appropriate for determining seasonal energy performance. The actual effect of solar reflectance and thermal emittance on building performance may vary.</p> <p>Manufacturer of product stipulates that these ratings were determined in accordance with the applicable Cool Roof Rating Council procedures.</p>										

The contractor should specify on the application and then permit staff should check the product by going to the CRRC rated products directory: <http://www.coolroofs.org/ratedproductsdirectory.html>
Here is an example showing approved roofing type products from the directory:
