

**AGREEMENT
TO
ENHANCE COOPERATION ON REDUCING AIR POLLUTION
BETWEEN
THE MINISTRY OF ENVIRONMENTAL PROTECTION
OF THE PEOPLE’S REPUBLIC OF CHINA
AND
THE STATE OF CALIFORNIA OF
THE UNITED STATES OF AMERICA**

This Agreement to enhance cooperation on reducing air pollution is entered into by the State of California of the United States of America (California) and the Ministry of Environmental Protection of the People’s Republic of China (MEP), hereafter jointly referred to as the “Parties,” in order to strengthen and coordinate efforts to improve air quality and protect public health, promote clean and efficient energy, protect the environment and natural resources, and support sustained economic growth.

This Agreement provides a framework for cooperation between the Parties and facilitates collaboration in areas of mutual interest. It supports capacity building to reduce air pollution by the parties and facilitates cooperation and trade in environment-friendly technologies.

Section I
Areas of Cooperation

The Parties agree to cooperate in the following areas, on the principles of equality and mutual benefit, and in any other areas agreed to by both Parties:

- Activities that reduce air pollution while enabling sustained economic growth;
- Activities that enhance pollution control strategies for industrial sectors and the transportation sector;
- Activities that strengthen institutions and governance structures that oversee implementation and enforcement of air pollution reduction programs;
- Activities that support joint-ventures, partner-agreement, and capital investments in the design, construction, and operation of projects that reduce air pollution.

Section II
Forms of Cooperation

Forms of cooperation may include the following:

- Exchange of regulatory strategies, policies, programs and incentives to reduce pollution across economic sectors and regions;
- Exchange of information on the structure and design of regulatory

institutions that enforce pollution laws and rules, including California's network of regional air quality management districts [AQMDs];

- Visits of personnel from one of the Parties to the other;
- Cooperative research on technologies and strategies of mutual interest;
- Joint organization of symposia, seminars, workshops, and training; and
- Any other mutually agreeable forms of cooperation that contribute to the purpose of this Agreement.

Section III Implementation

Each Party will designate a point of contact that will serve as the primary liaisons of ongoing collaboration efforts. These liaisons will work with appropriate staff and policymakers to fulfill the commitments outlined in this Agreement.

The parties shall encourage their respective environmental protection organization, enterprises, and research institutions to establish and develop direct contacts with each other in the field of air pollution reduction. All activities undertaken pursuant to this Agreement shall be subject to the applicable laws of the Parties, as well as the availability of funds, personnel, and other resources of each Party.

Section IV Duration, Termination, Amendments

This Agreement will remain operative for two years from the signing of
