

# Go Solar California!

California Solar Initiative, the Golden State's Million Solar Roofs Program

## New Solar Homes Partnership Training Workshops

The Energy Commission will be providing three workshops on how the **New Solar Homes Partnership Program** (NSHP) works: how to apply for incentives and how to get paid. This will be a golden opportunity for all interested parties to learn how to participate in this 10-year, \$400 million program. The workshops are designed to provide a program overview, as well as important details about applying to the program. To be held in three locations around the state and hosted by our utility partners, you won't want to miss this opportunity to learn more about the program and ask questions.

Topics will include:

- \* NSHP Program Overview
- \* The Application Process
- \* PV Calculator Tool
- \* NSHP Energy Efficiency Requirements
- \* The Payment Claim Process
- \* Utility Residential New Construction Energy Efficiency Programs
