**NOTICE OF PROPOSED AWARD****Alternative and Renewable Fuel and Vehicle Technology Program****Grant Solicitation GFO-15-601
DC Fast Chargers for California's North-South Corridors
February 16, 2016**

On July 27, 2015, the California Energy Commission (Energy Commission) released a Grant Solicitation and Application Package entitled "DC Fast Chargers for California's North-South Corridors" under the Alternative and Renewable Fuel and Vehicle Technology Program (ARFVTP). This grant solicitation was an offer to fund projects that will install Direct Current (DC) fast charging stations on Interstate 5 (I-5), State Route 99 (SR 99), and along United States Highway 101 (US-101) from San Jose traveling South in California. The grant solicitation announced that there is up to a total of \$10 million available for the agreements resulting from this solicitation and that the Energy Commission, at its sole discretion, reserves the right to increase or reduce the amount of funds available.

The attached table, "Notice of Proposed Awards", identifies each applicant selected and recommended for funding by Energy Commission staff and includes the amount of recommended funding and score. This notice is being mailed to all parties who submitted an application to this solicitation and is also posted on the Energy Commission's website at: <http://www.energy.ca.gov/contracts/index.html>.

Funding of proposed projects resulting from this solicitation is contingent upon the approval of these projects at a publicly noticed Energy Commission Business Meeting and execution of a grant agreement.

Questions should be directed to: Tonya Heron
Grants and Loans Officer
