FOURTH REVISED NOTICE OF PROPOSED AWARDS

Alternative and Renewable Fuel and Vehicle Technology Program

Grant Solicitation PON-13-607 Hydrogen Refueling Infrastructure – Operation and Maintenance Grants

September 29, 2015

On November 22, 2013, the California Energy Commission (Energy Commission) released a Grant Solicitation and Application Package entitled “Hydrogen Refueling Infrastructure” under the Alternative and Renewable Fuel and Vehicle Technology Program (ARFVTP). This grant solicitation (PON-13-607) was an offer to fund projects: 1) to develop infrastructure necessary to dispense hydrogen transportation fuel; and 2) to provide needed Operation and Maintenance (O&M) funding to support hydrogen refueling operations prior to the large-scale roll-out of Fuel Cell Vehicles (FCVs). Funding will be provided to construct, upgrade, or support hydrogen refueling stations that expand the network of publicly accessible hydrogen refueling stations to serve the current population of FCVs and accommodate the planned large-scale roll-out of FCVs commencing in 2015.

On March 28, 2014, the Energy Commission issued a Notice of Proposed Awards (NOPA) for O&M support grants to 4 existing hydrogen stations that were operational. On October 17, 2014, the Energy Commission issued a Revised NOPA for 2 additional stations that became operational. On June 11, 2015 the Energy Commission issued a Second Revised NOPA for 9 stations. On August 17, 2015 the Energy Commission issued a Third Revised NOPA for 13 stations. The attached Fourth Revised NOPA is for 5 stations. Additional proposed awards will be announced as eligible O&M funding applicants acquire permits that allow them to construct and begin operation of the hydrogen refueling station identified in their O&M funding application.

As articulated in PON-13-607 funding for these grants is tied to the date the station is operational as articulated in this table:

O&M Support Grants

	Actual Station Operational Date		
	On or Before October 31, 2015	November 1, 2015 through February 29, 2016	March 1, 2016 through October 31, 2016
Maximum Annual O&M Support	100% of eligible O&M costs up to \$100,000 per year.	80% of eligible O&M costs up to \$80,000 per year.	60% of total project costs up to \$60,000 per year.
Maximum Term for O&M Funding	October 31, 2018	October 31, 2018	October 31, 2018
Max O&M Funding Award per Station	\$300,000	\$240,000	\$150,000

The attached table, "Fourth Revised Notice of Proposed Awards," identifies each applicant selected and recommended for funding and includes the amount of the recommended award. This notice is being mailed to all parties who submitted an application to this solicitation and is also posted on the Energy Commission's website at:
<http://www.energy.ca.gov/contracts/index.html>.

Funding of proposed projects resulting from this solicitation is contingent upon the approval of these projects at a publicly noticed Energy Commission Business Meeting and execution of a grant agreement.
