

# Instructions for Computer Monitors Appliance Data

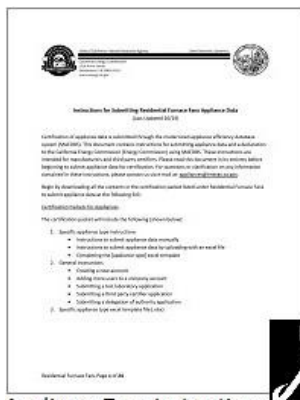

(Last Updated August 2022)

## Introduction

Certification of appliance data to the California Energy Commission (CEC) is done through the Modernized Appliance Efficiency Database System (MAEDbS). This document contains instructions for submitting appliance data and declarations to the CEC using MAEDbS. These instructions are for manufacturers and third-party certifiers. Please read this document in its entirety before submitting appliance data for certification. For questions or clarification on any information contained in these instructions, please contact us via e-mail at [appliances@energy.ca.gov](mailto:appliances@energy.ca.gov).

The certification packet you have downloaded includes the following (shown below):

1. These specific appliance type instructions
  - Instructions to submit appliance data manually
  - Instructions to complete and submit the Computer Monitors excel template
2. General instructions
  - Creating a new account
  - Adding additional users to a company account
  - Submitting a test laboratory application
  - Submitting a third-party certifier application
  - Submitting a delegation of authority application
3. Specific appliance type excel template file (.xlsx)

## Process Overview of Submitting Appliance Data using MAEDbS (1<sup>st</sup> Stage)

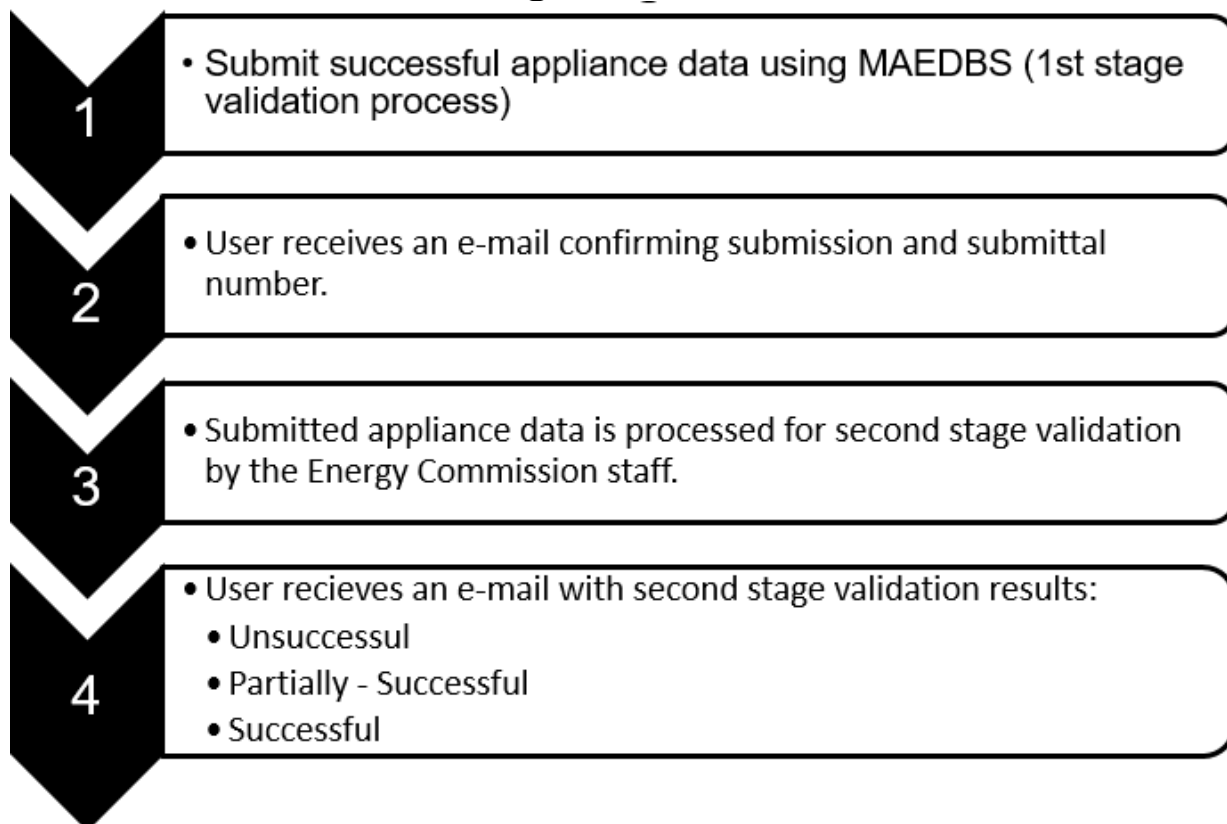

<sup>1</sup>The CEC must list a test laboratory before appliance data gathered by them may be certified. To do this the test lab must complete the test laboratory application.

<sup>2</sup>A third-party Certifier application must be approved by the CEC before a Third-party Certifier may submit on a manufacturer's behalf.

<sup>3</sup>If a manufacturer elects to provide data through a Third-party certifier, the manufacturer must submit a delegation of authority application giving the Third-party certifier permission to submit appliance data on behalf of the manufacturer.

\*For more information on applications, refer to the general instructions in the certification packet.

## Overview of the 2<sup>nd</sup> Stage Validation Process

## Completing the Excel Template & Manual Entry Page

To upload your data using the excel template, begin by downloading and completing the provided spreadsheet in the [Computer Monitors \(MONI\)](#) certification packet. The excel template included in the certification packet should look like this:

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z	AA	AB	AC
1	Action	Manufacturer	Brand	ModelNumber	RegulatoryStatus	BacklightType	Curved	OLED	EPD	KMM_KVM	VeryHighPerformance	GamingMonitorWithIncHardware	GamingMonitorWithOutIncHardware	FastRefreshRateGamingMonitor	MaxRefreshRate	TouchScreenCapability	TouchScreenOnMode	TouchScreenSleepMode	TouchScreenOffMode	ABC	ABCEnabled	ColorGamut	ViewableScreenArea	ScreenSize	ScreenLuminance	NativeResolution	OnModePowerDraw	SleepModePowerDraw	OffModePowerDraw
2																													
3																													
4																													
5																													
6																													
7																													

**Note:** Excel submittal template name cannot exceed 75 characters in length.

## Appliance data submitted to the MAEDBS must adhere to the following rules:

- The file format must be Excel 2010 or higher (.xlsx) file.
- **Only one model per row is permissible.** Multiple models submitted in a single row will fail the entire submission.
- Only 1000 models per excel template file are permitted.
- Do not leave any blank rows between rows containing data.
- The top row (Row 1) must contain the prefilled column titles, starting at the top-left cell (cell A1).
- Do not change the column titles in the spreadsheet.
- All column titles must be present in the spreadsheet or the submission will fail.
- For numeric values, do not format the cell to 'round' to meet a desired number length, enter the value as described in the instructions below.
- Do not include any special characters (i.e. `!@\$%^&\*;/?+-) unless otherwise indicated in the instructions.
- If you are adding and deleting the same model, do not include both the add and delete submissions in the same excel file. They must be submitted separately.

## Computer Monitors

[Save](#)[Cancel](#)

### Instructions

- Key in appliance data according to associated fields in the import template provided in the instructions for this specific appliance type. If the appliance brand name does not appear in the dropdown, enter it in the free entry field, this will be added to the system after CEC staff processing.
- Model data must first be processed by CEC prior to any submissions to change or delete previously submitted model data.
- **Brand codes are not accepted.**

For manual entries, the manual data entry page should look like the image below for the appliance type.

The following instructions are for completing the excel spreadsheet **and** the manual data entry page by entering the data needed to certify your appliance. These instructions are for the Computer Monitors appliance type only. Please read all these instructions carefully.

**KEY: Manual Entry Field Title [Excel Template Column Heading]:**

**E:** Excel template specific instructions

**M:** manual entry specific instructions

- **Action [Action]:**

**E:** Enter the appropriate code in the column representing the action you are performing. Other entries not shown in the table below will be unsuccessful.

**M:** Select the appropriate code from the dropdown menu of options in the table below.

Code	Action	Description
A	Add	Adding a new model to the database
D	Delete	Deleting a model currently in the database
C	Change	Changing a model currently in the database

**Important:** For changes, the manufacturer name, model number, brand name, and all unchanged fields must match the original submission. Only fields with actual changes should differ from the original submission. For deletions, all unique fields are required and must match the original data submission. Unique fields will be identified with an asterisk (\*) in the instructions.

- **Manufacturer [Manufacturer]\*:**

**E:** Enter the full name of the manufacturer as it appears in the database or in the company account.

**M:** The manufacturer name is populated automatically using the information from the declaration.

- **Brand [Brand]\*:**

**E:** Enter the full name of the brand which will appear on the appliance and under which the appliance is sold. If both the manufacturer name and the brand name are identical, do not leave the brand field blank.

**M:** Locate the brand name from the dropdown menu. If it does not appear, enter the full name of the brand which will appear on the appliance and under which the appliance is sold in the 'New Brand' field box.

- **Model Number [ModelNumber]\*:**

Enter the model number of the appliance as it will appear on the appliance itself (or on its packaging). Model numbers can have a maximum of thirty (30) characters. Do not include information that is not part of the model number.

**Using asterisks as wildcards:**

Models that have identical data but different model numbers due to features unrelated to energy use can be certified with a single listing through the use of asterisks.

An asterisk in a model number can represent any single character, including special characters and blanks. Note, though, that asterisks are the only wildcard that our system is able to recognize.

If you choose to use asterisks, use one asterisk for each character being replaced. Asterisks may not be used for the first four

characters; the first four characters of a model number must always be entered. Lastly, asterisks should only replace the characters that are different between model numbers.

For example, if your model comes in three different exterior finishes, it may have three different model numbers:

ZZ-179853-WHT

ZZ-179853-BLK

ZZ-179853-RED

You could use a single listing to cover all three colors by using asterisks for the characters that change, but that do not reflect energy use:

ZZ-179853-\*\*\*

Remember, asterisks are appropriate only for models with identical data, and that one asterisk must be used for each character in the model number that can change.

- **Regulatory Status [RegulatoryStatus]:**

**E:** Enter the appropriate code representing the regulatory status. Other entries not shown in the table below will be unsuccessful.

**M:** Select the appropriate code from the dropdown menu of options in the table below.

Code	Regulatory Status
N	Non-Federally Regulated  <i><u>Reminder: Any models that were voluntarily certified prior to the 7/1/2019 effective date do not need to be re-certified.</u></i>
V	Voluntarily Certified (voluntarily certified as meeting the latest Amendments to Computers and Monitors adopted on 12/9/2020 and effective on 12/9/2021)

- **Backlight Type [BacklightType]:**

**E:** Enter the appropriate code representing the type of backlight in the computer monitor. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate option from the dropdown menu from the options in the table below.

Code	Description
N	The computer monitor does <b><u>not</u></b> have a backlight
C	The computer monitor has a Cold-Cathode Fluorescent (CCFL) backlight
L	The computer monitor has an LED backlight
Q	The monitor has a Quantum Dots backlight

- **Curved Monitor [Curved]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor is curved. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor is curved
F	False	The computer monitor is <b><u>not</u></b> curved

- **Organic light-emitting diode (OLED) Monitor [OLED]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor is an Organic light-emitting diode (OLED) monitor. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor is an OLED monitor
F	False	The computer monitor is <b><u>not</u></b> an OLED monitor

- **Enhanced Performance Display Monitor [EPD]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor is an Enhanced Performance Display monitor. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor is an Enhanced Performance Display Monitor
F	False	The computer monitor is <b><u>not</u></b> an Enhanced Performance Display Monitor

- **Operates with KVM switch & designed to be used in server rack for use solely in data center? (T/F) [KMM\_KVM]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor is a Keyboard, Mouse, and Monitor that can operate with a KVM switch and is designed to be used in a server rack for use solely in a data center. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor can operate with a KVM switch
F	False	The computer monitor <b><u>cannot</u></b> operate with a KVM switch

- **Very High Performance Monitor [VeryHighPerformance]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor is a Very High Performance monitor. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor is a Very High Performance monitor
F	False	The computer monitor is <b><u>not</u></b> a Very High Performance monitor

- **Gaming Monitor With Incremental Hardware [GamingMonitorWithIncHardware]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor is a Gaming Monitor with incremental hardware-based assistance. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor is a Gaming Monitor with incremental hardware-based assistance
F	False	The computer monitor is <b><u>not</u></b> a Gaming Monitor with incremental hardware-based assistance

- **Gaming Monitor Without Incremental Hardware  
[GamingMonitorWithOutIncHardware]:**

**E:** Enter the appropriate code in the column representing whether or not the Computer Monitor is a Gaming Monitor without incremental hardware-based assistance. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor is a Gaming Monitor without incremental hardware-based assistance
F	False	The computer monitor is <b><u>not</u></b> a Gaming Monitor without incremental hardware-based assistance

- **Fast Refresh Rate Gaming Monitor? (T/F)  
[FastRefreshRateGamingMonitor]:**

**E:** Enter the appropriate code representing whether or not the monitor is a Fast Refresh Rate Gaming Monitor. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate option from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The monitor is a Fast Refresh Rate Gaming Monitor
F	False	The monitor <b><u>is not</u></b> a Fast Refresh Rate Gaming Monitor

- **Maximum Refresh Rate (Hz) [MaxRefreshRate]:**

Enter the monitor's maximum refresh rate in hertz (Hz). Enter a numeric value and report it as a whole number.

- **Touch Screen Capability [TouchScreenCapability]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor has Touch Screen Capability. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor has Touch Screen Capability
F	False	The computer monitor does <b><u>not</u></b> have Touch Screen Capability

- **Touch Screen Enabled in Computer Monitor On Mode [TouchScreenOnMode]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor has Touch Screen Enabled in On Mode. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor has Touch Screen Enabled in On Mode
F	False	The computer monitor does <b><u>not</u></b> have Touch Screen Enabled in On Mode

- **Touch Screen Enabled in Computer Monitor Sleep Mode [TouchScreenSleepMode]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor has Touch Screen Enabled in Sleep Mode. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor has Touch Screen Enabled in Sleep Mode
F	False	The computer monitor does <u>not</u> have Touch Screen Enabled in Sleep Mode

- **Touch Screen Enabled in Computer Monitor Off Mode [TouchScreenOffMode]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor has Touch Screen Enabled in Off Mode. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor has Touch Screen Enabled in Off Mode
F	False	The computer monitor does <u>not</u> have Touch Screen Enabled in Off Mode

- **Automatic Brightness Control [ABC]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor has Automatic Brightness Control (ABC). Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor has Automatic Brightness Control (ABC)
F	False	The computer monitor does <b><u>not</u></b> have Automatic Brightness Control (ABC)

- **Automatic Brightness Control Enabled (when Shipped) [ABCenabled]:**

**E:** Enter the appropriate code in the column representing whether or not the computer monitor has Automatic Brightness Control (ABC) enabled when shipped. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate action from the dropdown menu from the options in the table below.

Code	Action	Description
T	True	The computer monitor has ABC enabled when shipped
F	False	The computer monitor does <b><u>not</u></b> have ABC enabled when shipped

- **Color Gamut [ColorGamut]:**

**E:** Enter the appropriate code representing the Color Gamut of the computer monitor. Other entries not shown in the table below will result as an unsuccessful entry.

**M:** Select the appropriate color gamut from the dropdown menu from the options in the table below.

Code	Color Gamut
A	<= 32.9% of CIELUV
B	> 32.9% of CIELUV (99% or more of defined sRGB colors)
C	> 38.4% of CIELUV (99% or more of defined Adobe RGB colors)

- **Viewable Screen Area (Total Square Inches) [ViewableScreenArea]:**

Enter the Viewable Screen Area of the computer monitor in square inches, calculated by multiplying the viewable image width by the viewable image height. *For Curved screens, the measurements shall be made along the curvature on the face of the screen rather than along a straight line or cord.* Enter a numeric value and report it to the nearest whole number.

- **Screen Size (Diagonal Inches) [ScreenSize]:**

Enter the Diagonal Screen Size of the computer monitor in inches. The value can be reported up to one (1) decimal place.

- **Screen Luminance (Candelas Per Square Meter) [ScreenLuminance]:**

Enter the Screen Luminance of the computer monitor in candelas per square meters. Enter a numeric value and report it to the nearest whole number.

- **Native Resolution (Megapixels) [NativeResolution]:**

Enter the Native Resolution of the computer monitor in megapixels. The value can be reported up to one (1) decimal place.

- **Power Draw In Computer Monitor On Mode (Watts) [OnModePowerDraw]:**

Enter the power draw in Computer On Mode in watts. Enter a numeric value and report the number to two (2) decimal place.

- **Power Draw in Computer Monitor On Mode Standard:**

*Note: This field is not part of the Excel certification template and should be left blank if the Manual Entry method is being used. MAEDBS will auto-calculate any applicable standard (plus qualifying allowances) for product validation purposes.*

- **Power Draw In Computer Monitor Sleep Mode (Watts) [SleepModePowerDraw]:**

Enter the power draw in Computer Sleep Mode in watts. Enter a numeric value and report the number to two (2) decimal place.

- **Power Draw In Computer Monitor Off Mode (Watts) [OffModePowerDraw]:**

Enter the power draw in Computer Off Mode in watts. Enter a numeric value and report the number to two (2) decimal place.

- **Power Draw in Computer Monitor Sleep Mode and Off Mode Standard:**

*Note: This field is not part of the Excel certification template and should be left blank if the Manual Entry method is being used. MAEDBS will auto-calculate any applicable standard (plus qualifying allowances) for product validation purposes.*

# Submitting Appliance Data

## Log-in

To begin making data submittals, start by signing in to your MAEDBs account.

- If you have not created an account, refer to the general instructions on how to create an account.
- If you have already created an account and the CEC has approved it, log in. Once in your registered account, **select the appropriate company type (if applicable)** and continue to the next section.

The screenshot shows the MAEDBS Log In page. At the top is the California Energy Commission logo. The main heading is "MAEDBS Log In". Below it are two input fields: "\*User ID \* (Required)" and "\*Password \* (Required)". Below the password field is a checkbox labeled "I have read and agree to the Login Policy". Below the checkbox are two links: "Forgot your User ID?" and "Forgot your Password?". At the bottom of the login box is a "Sign In" button. To the right of the login box is a callout box with the text "1. Log in with registered account." pointing to the login box. Below the login box are three columns of links and buttons: "Don't have an account" with a "Register new account" button, "Public Search" with an "Appliance Search" button, and "3rd Party and Test Laboratory Approvals" with a "Search" button. At the bottom of the page is a footer with contact information.

Please Select ▼

### Third-party Certifier User

Choose the following from the dropdown menus:

- **Category:** Computers
- **Appliance:** Computer Monitors
- **Type of Entry:** Choose either 'Manual' or 'Upload Excel'  
**Note:** Choose 'Manual' if you would like to input the data you have collected using the MAEDBS data entry form. Alternatively, Choose 'Upload Excel' if you would like to upload your data using the excel spreadsheet template.
- **Manufacturer you are submitting on behalf of** (for third-party certifier user only): Select the manufacturer you are submitting appliance data on behalf of.  
**Note:** The manufacturer will only be available from the dropdown menu after the manufacturer has submitted a Delegation of Authority application in MAEDBS to allow the third-party certifier to submit appliance data on behalf of them.

After making your selections, click the '**Next**' button to begin the appliance submittal declaration.

# Completing the Appliance Submittal Declaration

After selecting the appliance type and the type of entry, you will be redirected to the Appliance Submittal Declaration page.

## Appliance Submittal Declaration

To meet the requirements of Title 20, companies wishing to certify appliances with the California Energy Commission must provide complete and accurate contact information for themselves and for the test laboratory used to produce the certification data. Companies must then sign this Declaration on the following page. If a test lab was not used (for example, if a manufacturer is requesting only that models be deleted from the certification database), or if an appropriate exception has been met, the Test Laboratory section may be left blank.

With each appliance data submission, the appliance submittal declaration application must be completed. By completing and submitting the Declaration application, you are certifying that the appliance efficiency data you have collected is a true and accurate statement of your product's performance. After the Declaration, you will continue to submit data either by entering the information manually or uploading an excel spreadsheet.

The following set of instructions is for completing each section in the appliance submittal declaration.

## **Section 1 – Certifying Company**

- The certifying company name and location information will be pre-populated with the profile information of the user logged in. The contact person information will also be pre-populated with the profile information of the user logged in. To change the contact person to another user associated with the certifying company, click '**Search**' button and select the person from the list. Only approved contact personnel will be appear in the list.

## **Section 2 – Manufacturer (if different from Certifying Company)**

*This section applies to third-party certifiers' only.*

- The manufacturer name and location information will be pre-populated with the information of the manufacturer you selected when selecting your appliance type and type of entry. An example is shown below:

## Select Appliance

### Instructions

- If the manufacturer is not listed below, please contact them to submit a Delegation of Authority application.

## Section 4 – Declaration

To complete the appliance submittal declaration application:

- Enter your full first name and last name
- Enter your job title
- Select the date

Then click the '**Next**' button to submit the appliance submittal declaration application and to begin submitting the appliance data.

### Declaration

I declare under penalty of perjury of the laws of the State of California that:

1. All the information in this statement is true, complete, accurate, and in compliance with all applicable provisions of Sections 1601 – 1609 of Title 20 of the California Code of Regulations.
2. Units of each basic model of appliance for which certification is requested have been tested in accordance with all applicable requirements of Sections 1603 – 1604 of Title 20 of the California Code of Regulations.
3. Section 1606(g) of Title 20 of the California Code of Regulations have been and are being complied with.
4. All units manufactured, distributed or otherwise intended for sale within the State of California have been and are being marked as required by Section 1607 of Title 20 of the California Code of Regulations.
5. The (i) manufacturer's name or brand name or trademark; (ii) model number; and (iii) date of manufacture are permanently, legibly, and conspicuously displayed on an accessible place on each unit.
6. The appliance complies with the applicable energy efficiency, energy consumption, energy design, water efficiency, water consumption, and water design standards in Sections 1605.1, 1605.2, and 1605.3 of Title 20 of the California Code of Regulations.

## Uploading Data via the Excel Template

After completing the appliance submittal declaration, you will be redirected to the [Upload Document](#) page (shown below). This page only appears if you selected '**Upload Excel**' while selecting the appliance type (the step before completing the submittal appliance declaration). Click the '**Choose File**' button to locate and upload your completed excel template. After locating and selecting your excel file, click the '**Next**' button to upload the appliance data to the MAEDBS.

#### Instructions

- Model data must first be processed by CEC prior to any submissions to change or delete previously submitted model data.
- Upload appliance data using the import template provided by the instructions for this specific appliance type.
- Please note that only one excel file can be added at a time.
- **Brand codes are not accepted.**

No file chosen

After clicking the '**Next**' button, the system will upload the appliance data, which could take several minutes depending on the amount of data being uploaded. Once uploaded, you will be redirected to the [Appliance Data List](#) page, which will list all the appliance models in the excel file.

Continue to the [Results of the First Stage Validation Process](#) section in this document.

## Uploading Data Manually

After completing the appliance submittal declaration, you will be redirected to the [Appliance Type](#) page (shown below). This page only appears if you selected the type of entry to be '**Manual**' while selecting the appliance type (the step before completing the submittal appliance declaration).

Miscellaneous Refrigeration Products

**Instructions**

- Key in appliance data according to associated fields in the import template provided in the instructions for this specific appliance type. If the appliance brand name does not appear in the dropdown, enter it in the free entry field, this will be added to the system after CEC staff processing.
- Model data must first be processed by CEC prior to any submissions to change or delete previously submitted model data.
- Brand codes are not accepted.

Please refer to section [Completing the Excel Template & Manual Entry Page](#) in this document to complete the manual data entry page (shown above).

When the required entries are entered, click on the **'Save'** button to save the entry. You will then be redirected to the [Appliance Data List](#) page where you can continue to add more models.

Continue to the [Results of the First Stage Validation Process](#) section in this document.

## Results of the First Stage Validation Process

On the [Appliance Data List](#) page, you are able to:

- Review your data before submitting,
- Modify your data by clicking the '**Select**' link next to a specific model,
- Delete a specific model by checking the box next to the model and clicking the '**Delete**' button, and
- Add a new model to your submission by clicking the '**Add**' button (this redirects you to the manual entry page; see the previous section for instructions).

**Note:** Multiple excel files cannot be submitted simultaneously.

When you are finished, click the '**Next**' button to submit the data for the first stage validation process.

After the system processes the appliance data, you will be redirected to the results page. If all entries pass first stage:

- Select the date the models can be displayed to the public
- Then click the '**Submit**' button to submit the appliance data for the second stage validation process.

ResidentialFurnaceFans	7	California Energy Commission	A
ResidentialFurnaceFans	8	California Energy Commission	A

For cases that result in failed appliance data, please refer to the Troubleshooting section in this document.

## First Stage vs. Second Stage Validation

### First Stage Validation

- The first stage validation process is the process of submitting data through MAEDBS for quality check of the appliance data.

### Second Stage Validation

- CEC staff next process successful submissions to the MAEDBS.
- The second stage validation process verifies if the appliance data meets federal and state standards.

## Troubleshooting

If some or all models fail, they will appear in the Failed section in the results page (shown below). The reasons for failing are applicable to both types of entries. To view the reasons why the model(s) failed, click the '**View Failure Reasons by Category**' link.
