Attachment to Form 801  
Gabriel Taylor  
Transform  
Sydney, Australia  
March 16-21, 2019

**Section 2:**

Transform is put on by the Green Building Council of Australia. Established in 2002, the Green Building Council of Australia is the nation's authority on sustainable buildings, communities and cities. They aim to create healthy, resilient and positive places for people and the natural environment. Their purpose is to lead the sustainable transformation of Australia's built environment.

**Section 3.2:**

The Green Building Council of Australia invited Commissioner Andrew McAllister to give a keynote presentation at the 2019 Transform conference titled "Achieving a Carbon Positive Future" in Sydney, Australia. The Commissioner would like Gabriel D. Taylor, P.E., to represent the Energy Commission in his place. California leaders are on record stating that while California's carbon emissions may be relatively small compared to global carbon emissions, the goal of the state is to put forward carbon management programs and policies that can be replicated outside the state. This conference is an excellent opportunity to share California's deep experience and lessons learned with a large and international audience.
