Retired Unbundled RECs ³ :				
¹ The eligible renewable percentage above does not reflect RPS compliance, which is determined using a different methodology.				
² Unspecified power is electricity that has been purchased through open market transactions and is				
not traceable to a specific generation source.				
³ Renewable energy credits (RECs) are tracking instruments issued for renewable generation.				
Unbundled renewable energy credits (RECs) represent renewable generation that was not				
delivered to serve retail sales. Unbundled RECs are not reflected in the power mix or GHG				
emissions intensities above.
