STATE OF CALIFORNIA
STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION

ADOPTION OF THE
FINAL 2022 INTEGRATED ENERGY POLICY REPORT UPDATE

WHEREAS, the Warren-Alquist Act requires the California Energy Commission (CEC) in odd-numbered years to "conduct assessments and forecasts of all aspects of energy industry supply, production, transportation, delivery and distribution, demand, and prices" and to "use these assessments and forecasts to develop and evaluate energy policies and programs that conserve resources, protect the environment, ensure energy reliability, enhance the state's economy, and protect public health and safety" (Public Resources Code § 25301, subd. (a)); and to update these assessments and forecasts in even-numbered years (Public Resources Code § 25302, subd. (c)); and

WHEREAS, on April 22, 2022, the Lead Commissioner issued a Scoping Order for the 2022 Integrated Energy Policy Report Update stating that the 2022 Integrated Energy Policy Report Update would address the following three major topics as described below (1) Establishing a Framework to Center Equity and Environmental Justice Throughout CEC Efforts and Revisiting the Energy Equity Indicators (2) Creating a California Planning Library (3) Addressing Emerging Topics. The 2022 IEPR Update will serve as a model for IEPRs going forward by incorporating the results and analyses developed in multi-year in-depth CEC proceedings and investigations into a short summary format. This will allow CEC staff, and the stakeholders they engage, to conduct in-depth analysis on important topics advanced under active CEC Order Instituting Informational Proceedings and other proceedings, to coordinate the delivery of analyses and reports to support the state's other energy and environmental agencies, and to summarize findings from those efforts to be included in the 2022 IEPR Update and future IEPRs; and

WHEREAS, the CEC held eleven workshops, one hearing, and one webinar between April through December 2022 on the topics identified in the scoping order, to solicit input from stakeholders on these topics; and

WHEREAS, the CEC has considered the application of the California Environmental Quality Act (CEQA) to the adoption of the *Final 2022 Integrated Energy Policy Report Update*, and concluded that the adoption of this report is not a "project" under CEQA, but that in the event that adoption were determined to be a project, that it would nonetheless be exempt from CEQA requirements pursuant to the "common sense" exemption (CEQA Guidelines, § 15061, subd. (b)(3)).

THEREFORE BE IT RESOLVED, the CEC hereby accepts, approves, and adopts the *Final 2022 Integrated Energy Policy Report Update*, incorporating any changes presented and adopted today along with any non-substantive changes such as typographical corrections, and directs CEC staff to make the document accessible to state, local, and federal entities, the public, and the Legislature.

CERTIFICATION

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the CEC held on February 28, 2023.
