

Item 4: Huntington Beach Energy Project - 12-AFC-02C

July 26, 2023 Business Meeting

Presented by Joseph Douglas, Compliance Project Manager
Tanner Kelsey, Lead Counsel
Siting, Transmission and Environmental Protection Division

Benefit to Californians

Grid Reliability

Helps support the projected electrical demand in the Los Angeles Basin by providing an additional 1000 hours of power generation.

Overview

Date	Action
05/01/2017	CEC License Approval
06/15/2020	Units Came Online
05/11/2022	Petition for Post Certification Change received
06/12/2023	Staff's Analysis docketed
07/10/2023	Errata to Staff's Analysis docketed

Staff Recommendation

- Approve the Order, to modify the existing air quality conditions of certification and allow an increase in annual operation to support grid reliability.
