STATE ENERGY RESOURCES
CONSERVATION AND DEVELOPMENT COMMISSION

RESOLUTION: Oak Valley Union Elementary School District

RESOLVED, that the State Energy Resources Conservation and Development Commission (CEC) adopts the staff CEQA findings contained in the Agreement or Amendment Request Form (as applicable); and

RESOLVED, that the CEC approves agreement 010-23-ECG with Oak Valley Union Elementary School District for a \$2,143,877 loan at zero-percent interest. The loan will finance a 279.6 kW ground mounted PV array in Tulare County. Upon project completion, it is estimated to reduce approximately 571,746 kWh of electricity consumption in the first year of solar production, saving approximately \$114,023 in utility costs per year. The simple payback period is approximately 18.8 years; and

FURTHER BE IT RESOLVED, that the Executive Director or their designee shall execute the same on behalf of the CEC.

CERTIFICATION

The undersigned Secretariat to the CEC does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the CEC held on August 09, 2023.

LOAN REQUEST FORM (LRF)

(Explain reason why Agreement is exempt under the above section:)

This project consists of the installation of a solar PV system at an existing elementary school in Tulare County, CA. The carport solar PV arrays will be installed over existing blacktop and undeveloped grass fields. Some trenching will be required to run conduit to the existing utility meter and to install structural posts for the solar PV systems. No trees will be removed as part of the project. The project involves no expansion of existing or former use at the sites.

The project is categorically exempt from environmental review pursuant to CEQA Guidelines section 15301 as minor alterations to existing public structures involving negligible or no expansion of existing or former use at the site, categorically exempt pursuant to CEQA Guidelines section 15303 as the installation of small new equipment, categorically exempt pursuant to CEQA Guidelines section 15304 as minor alterations to land, categorically exempt pursuant to CEQA Guidelines section 15311 as construction of structures accessory to existing institutional facilities, and categorically exempt pursuant to CEQA Guidelines section 15314 as a minor addition to an existing school where the addition does not increase original student capacity. The project will not impact an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies; does not involve any cumulative impacts of successive projects of the same type in the same place that might be considered significant; does not involve unusual circumstances that might have a significant effect on the environment; will not result in damage to scenic resources within a highway officially designated as a state scenic highway; the project site is not included on any list compiled pursuant to Government Code section 65962.5; and the project will not cause a substantial adverse change in the significance of a historical resource. Therefore, none of the exceptions to categorical exemptions listed in CEQA Guidelines section 15300.2 apply to this project and this project will not have a significant effect on the environment.

Common Sense Exemption. 14 CCR 15061 (b) (3) Explain reason why Agreement is exempt under the above section:

b) Agreement **IS NOT** exempt. (consult with the legal office to determine next steps)

ATTACHMENT 1
BUDGET DETAIL/PROJECT COST AND SAVINGS**

This loan is made to the Oak Valley Union Elementary School District (Borrower) for an energy savings project. The project consists of the energy generation measures listed in Table 1 below to be installed at one school in Tulare County, California.

The table below summarizes the estimated project cost(s), saving(s), and simple payback(s) for the project.

TABLE 1: Summary of Project Cost and Savings:

Energy Efficiency Measures	Estimated Total Project Cost	Energy Commission Loan	Estimated Annual Energy Cost Savings	Simple Payback* (Years)
Solar PV - Oak Valley Elementary School	\$2,143,877	\$2,143,877	571,746	18.8
TOTAL	\$2,143,877	\$2,143,877	571,746	18.8

*The simple payback is based on the loan amount.

The Borrower shall implement each measure listed in Table 1.

If the Borrower does not complete one or more of the measures or deviates from the quantities and specifications listed in Table 1, the California Energy Commission (CEC) project manager will calculate the maximum loan amount supported by the project. The loan amount will be determined by the lesser of: 1) multiplying the annual energy cost savings by 20; 2) total project costs; or 3) approved loan amount.

The Borrower shall notify the CEC project manager in writing if the Borrower expects any information in Table 1 to change. CEC staff will advise the Borrower of the procedure to approve any changes. Written documentation is required for any changes to the information included in this attachment.

If the Borrower has received disbursements exceeding the maximum loan amount supported by the project, the Borrower shall refund the difference to the CEC within 30 days of notification.
