

# **Item 9: CalCERTS Application to Register Low-rise Multifamily Projects for 2022 Energy Code Compliance**

February 14, 2024 Business Meeting

Armando Ramirez, Mechanical Engineer  
Efficiency Division, Standards Compliance Branch

# Benefit to Californians

## Home Energy Rating System (HERS) Program for Field Verification and Diagnostic Testing (FV&DT)

- Demonstrates code compliance
- Protects consumers
- Supports decarbonization goals

Source: CEC Staff

# HERS Provider and Data Registry Applications Overview

## HERS providers:

- Train and certify raters
- Perform quality assurance of raters
- Respond to complaints
- Collect and maintain data

## Residential data registries:

- Retain and validate user input data
- Generate official compliance documentation
- Must be operated by a HERS provider

Source: CEC Staff

# 2022-2023 Provider Application History

## December 2022 approvals

- Residential data registry, excluding low-rise multifamily (LRMF) compliance documents
- HERS Provider recertification

## June 2023 application

- Registration of LRMF compliance documents
  - New forms
  - Different compliance software

# Request

---

## Approve recommendations to:

- Recertify CalCERTS as a HERS provider
- Approve modification to a residential data registry
  - Incorporates low-rise multifamily documents for 2022 Energy Code compliance
