

Item 8: California Refinery Maintenance Reporting Guidebook (Docket No. 23-OIR-03)

May 8, 2024, Business Meeting

Jeremy Smith, Deputy Director
Energy Assessments Division

Background

Description	Rulemaking Process
Majority of PIIRA data collection Analysis and reporting requirements Confidentiality requirements Enforcement authority Timing of turnaround and maintenance rules	Emergency regulation
Refinery maintenance activity reporting	APA exempt. CEC may adopt guidelines.

Benefits to Californians

Greater transparency into the California petroleum industry and market

Better insights into gasoline supplies during refinery maintenance

Take action to reduce gasoline price spikes

SB X1-2 Data Collection

Refinery Costs vs. Profits

Informs the California Oil Refinery Cost Disclosure Act Monthly Report, and whether a maximum refiner margin should be set.

Market Analysis

Informs whether there is market manipulation or market failures.

Refinery Maintenance

Provides insights on timing of planned and unplanned outages.

CEC Forms:

- Planned Refinery Maintenance and Turnaround Report
- Unplanned Refinery Maintenance and Turnaround Report

Other Data

Provides additional insights.

Refinery Maintenance Guidelines

- Data needed for analysis of near-term supply analysis
- Reporting improvements:
 - Initial and final reports for both planned and unplanned work
 - Clear reporting timelines
 - Clarity of supplemental reporting
