Comments and Feedback

Recommendations and Community Benefits

- Expand details prioritizing underserved communities, fisheries, and tribal governments

Research Gaps

- Need for more science and data and utilizing tribal Traditional Ecological Knowledge

Workforce Development Needs

- Emphasize importance of supply chain in-state, training programs, and prioritizing of local workforce

Port Infrastructure Concerns

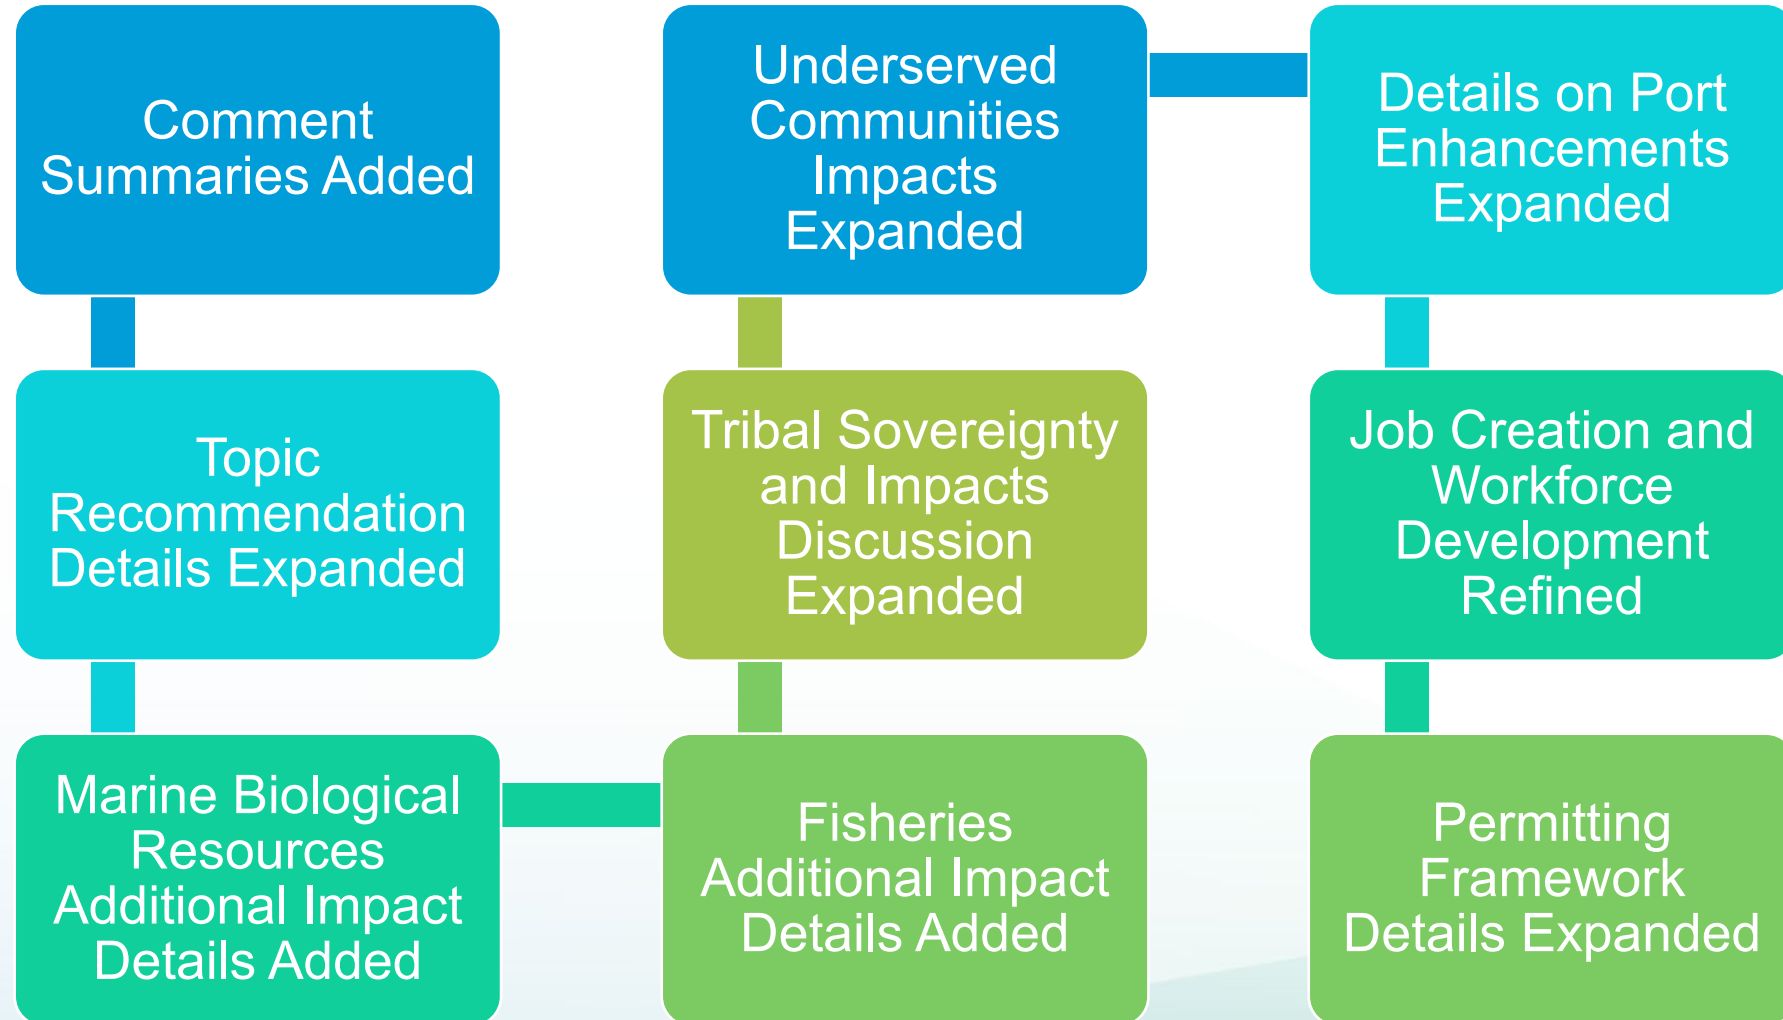

- Potential unknown impacts from expansion, manufacturing, and timing of project development and deployment

Permitting and Transmission Planning

- Specificity for a coordinated framework of responsibilities, timelines, and milestones

Changes in Final Strategic Plan

Strategic Plan Recommendations

Mitigation
Strategies to
Address
Impacts

- Tribal
- Fisheries
- Marine and Coastal Resources
- Department of Defense
- Underserved and Environmental Justice Communities

Comprehensive
Coordinated
Framework

- Permitting
- Ports Infrastructure Expansion
- Transmission Planning and Technology Development

Training and
Apprenticeship
Programs

- Local Workforce Development
- Community Colleges and University Curriculum

Staff Recommendation

Adopt the Assembly Bill 525 Offshore Wind Energy Strategic Plan:

- Volume I: Overview Report
- Volume II: Main Report
- Volume III: Appendices
