

Item 6: Petition for Rulemaking - Public Resources Code Section 25354

October 3, 2024 Business Meeting

Jeremy Smith, Deputy Director
Energy Assessments Division

Public Resources Code § 25354

- Part of Petroleum Industry Information Reporting Act (PIIRA) of 1980.
- Requires reporting, including:
 - Refinery inputs, imports, exports, outputs, stocks, sales
 - Major marketer receipts, stocks, exports, and sales
- Requires monthly projections

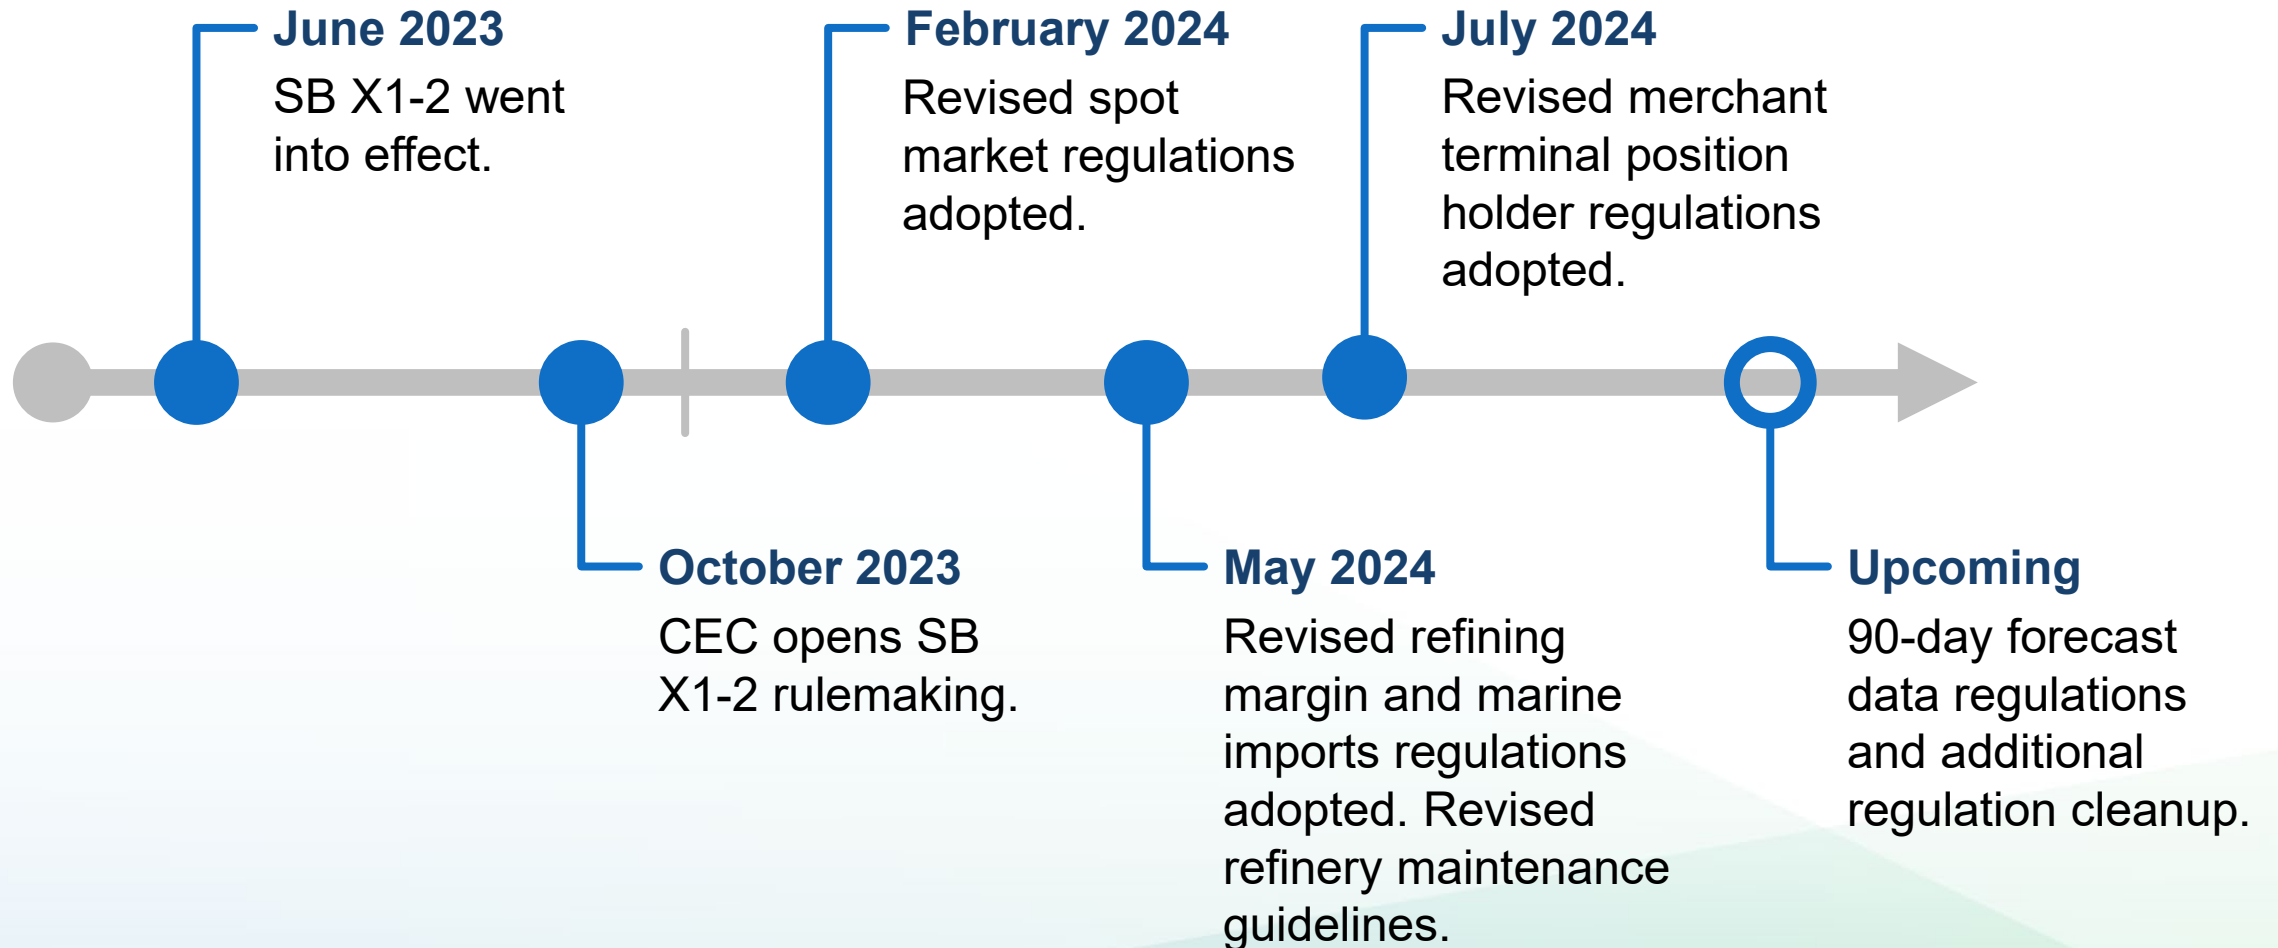

Request for Rulemaking

- Western States Petroleum Association (WSPA) requests that the CEC initiate a **formal** rulemaking:
 - Section 25354 (c) projections of refinery and major marketer operations
 - Clarify certain refinery maintenance reporting

SB X1-2 Rulemaking Timeline

Staff Recommendation

- Deny the petition for formal rulemaking:
 - Already under existing proceeding (23-OIR-03)
 - Emergency rulemaking workshop on these topics planned for November
 - Could subject CEC to an untenable timeline that would foreclose meaningful public participation
 - Section 25354 is self-executing, but may be implemented via guidelines or emergency regulations
