

Item 8: Proposed Resolution for a Deviation from the 2023 Integrated Energy Policy Report (IEPR) Forecast for the California Independent System Operator's 2024-25 Transmission Planning Process (TPP)

December 11, 2024, Business Meeting

Heidi Javanbakht, Manager
Energy Assessments Division, Demand Analysis Branch

Benefits to Californians

- Transparency in electricity planning process
- Enhanced national security

Overview

- U.S. Navy replacing 3 aircraft carriers at Naval Base Coronado
 - Not included in the 2023 IEPR Forecast
- Include in California ISO's 2024-25 TPP
 - Requires transmission upgrades by 2028
 - Allow deviation from 2023 IEPR Forecast
- Include in the 2024 IEPR Forecast

Year	New Load (MW)
2028	25
2035	25
2040	25

Staff Recommendation

- Approve the deviation from the 2023 IEPR Forecast for CAISO's 2024-25 TPP
