0	A	verage	Unspecified Power ²	0.0%	0.0%	3.7%
0			TOTAL	100.0%	100.0%	100.0%
Percentage of Retail Sales Covered by Retired Unbundled RECs ³ :					0%	

¹The eligible renewable percentage above does not reflect RPS compliance, which is determined using a different methodology.

²Unspecified power is electricity that has been purchased through open market transactions and is not traceable to a specific generation source.

The unbundled RECs retired in association with LADWP's 2023 electricity portfolios were sourced from eligible renewable energy generators such as biomass, biowaste, geothermal, eligible hydroelectric, solar, and wind energy resources.

For specific information about this electricity	Los Angeles Department of Water and Power		
portfolio, contact:	1-800-DIAL-DWP

³Renewable energy credits (RECs) are tracking instruments issued for renewable generation. Unbundled renewable energy credits (RECs) represent renewable generation that was not delivered to serve retail sales. Unbundled RECs are not reflected in the power mix or GHG emissions intensities above.
