

# **Item 6: 2025 California Building Energy Code Compliance (CBECC) Software (CBECC 2025.1.0 and CBECC-Res 2025.1.0)**

June 11, 2025 Business Meeting

RJ Wichert, Senior Mechanical Engineer  
Efficiency Division, Building Standards Branch

# Benefits to Californians

- 2025 Energy Code compliance
- Expands compliance modeling tools to account for building decarbonization
- New heat pump compliance options

# Overview

- Software updated for 2025 Energy Code
- Software follows 2025 ACM Reference Manuals
- Includes new 2025 baselines

# Update Process

- Industry and public feedback process
- Research versions to test updates
- Final software demonstrated in release candidates

# Proposed Actions

---

- Approve CBECC and CBECC-Res 2025.1.0
- Adopt staff's finding that the CBECC and CBECC-Res 2025.1.0 compliance software are exempt from CEQA
