CONSERVATION AND DEVELOPMENT COMMISSION

IN THE MATTER OF:

***Turlock Irrigation District's 2023
Integrated Resource Plan Filing***

Docket No.: 18-IRP-01

**Order Finding Compliance with
Public Utilities Code Section 9621.**

I. BACKGROUND

Pursuant to Senate Bill 350 (Stats. 2015, ch. 547), Public Utilities Code (PUC) section 9621 requires publicly owned utilities with an annual electrical demand exceeding 700 gigawatt hours to adopt integrated resource plans (IRPs) at least once every five years and submit them to the California Energy Commission (CEC). The IRPs must contain supporting information sufficient to demonstrate that they meet certain requirements, including greenhouse gas emission reduction targets and renewable energy procurement goals, as set forth in PUC section 9621. Under PUC section 9622, the CEC must review IRPs for consistency with these requirements. On October 4, 2018, the CEC adopted the Publicly Owned Utility Integrated Resource Plan Submission and Review Guidelines to govern the submission of IRPs.
