RE: Amendment or Repeal of Adopted Industrial Air Compressors Appliance Efficiency Standards

Dear Mr. Randle and Mr. Hitchings:

The California Energy Commission is in receipt of your Petition to Request a Hearing to Amend or Repeal the Commercial and Industrial Air Compressors Appliance Efficiency Standards Rulemaking, filed March 6, 2019, on behalf of Atlas Copco North America and Quincy Compressors. California Code of Regulations (CCR), Title 20, section 1221 and Government Code section 11340.6 provide that any interested person may petition the Commission to initiate a proceeding for the adoption, amendment, or repeal of a regulation.

Pursuant to CCR, Title 20, section 1221(b), I have determined that your petition contains the information required by CCR, Title 20, section 1221(a)(1)-(4), and hereby certify that your petition is complete. Please note that my determination and certification does not constitute an approval of your request for the Commission to initiate a rulemaking hearing.

The Commission will consider the merits of your petition at the Commission's next regularly-scheduled business meeting on Wednesday, April 10, 2019. The agenda for the business meeting will post at least 10 days prior to the business meeting, and will contain information for you to participate at the meeting. You may view the agenda and backup materials on our website at https://www.energy.ca.gov/business_meetings/index.html.

If you have any questions concerning this matter, please contact Jared Babula, senior attorney, at (916) 651-1462.

Sincerely,

A green ink signature of Drew Bohan, consisting of a large, stylized 'D' followed by a horizontal line.
