Intent:

Each fenestration product must provide an NFRC Label Certificate or the California Energy Commission's Fenestration Certificate to identify the thermal performance of each fenestration product being installed (NA7.4.1) and Section 10-111. All site-built fenestration must include the California Energy Commission's Fenestration Certificate. The labels must be located at the job site for verification by the enforcement agency. In addition, the responsible party must fill out the Fenestration Acceptance Certificate. The responsible party must verify the thermal performance of each specified fenestration product being installed matches the label certificate, energy compliance documentation and building plans. A copy of the certificate and any associated documentation must be given to the building owner and the enforcement agency for their records. The Fenestration Certificate of Compliance is used to document Fenestration products not certified or rated by NFRC by using the Commission's Default Table values in Section 110.6-A and Table 110.6-B or the calculated values as indicated Nonresidential Appendix NA6.

Responsible Party

The responsible party must verify the following (NA7.4.1.1 and Section 10-103(a)):

- Verify access to an enforcement agency approved Fenestration Certificate of Compliance (NRCC-ENV-E or NRCC-PRF-E) and a completed Certificate of Installation (NRCI-ENV-01-E); and
- b) For non-rated fenestration, record the U-factor, solar heat gain coefficient (R)SHGC, and visible light transmitted (VT) for the installed fenestration product(s); and
- c) For rated fenestration, record the installed fenestration product(s) NFRC's Certified Product Directory (CPD) number or Certificate Number when the Component Modeling Approach Label is submitted; and
- d) Verify that the delivery receipt, purchase order, or detailed receipt matches the delivered fenestration product(s); and
- e) Verify that the thermal performance (U-Factor, (R)SHGC, VT) for the fenestration product(s) matches the building plans, energy compliance documentation (NRCC-ENV-E, NRCC-PRF-E, and NRCI-ENV-01-E), and the label certificate (b or c above); and
- f) Verify that the Certificate of Acceptance (this form) is completed and signed.

The Certificate of Acceptance form is limited to seven (7) fenestration types, use as many forms as needed to document all fenestration.
