Docket No. 18-IRP-01

## **PROPOSED ORDER FINDING COMPLIANCE WITH PUBLIC UTILITIES CODE SECTION 9621**

ORDER NO: 26-0312-xx

---

### **I. BACKGROUND**

Pursuant to Senate Bill 350 (Stats. 2015, ch. 547), Public Utilities Code (PUC) section 9621 requires publicly owned utilities with an annual electrical demand exceeding 700 gigawatt hours to adopt integrated resource plans (IRPs) at least once every five years and submit them to the California Energy Commission (CEC). The IRPs must contain supporting information sufficient to demonstrate that they meet certain requirements, including greenhouse gas emission reduction targets and renewable energy procurement goals, as set forth in PUC section 9621. Under PUC section 9622, the CEC must review IRPs for consistency with these requirements. On October 4, 2018, the CEC adopted the *Publicly Owned Utility Integrated Resource Plan Submission and Review Guidelines* to govern the submission of IRPs.

### **II. STAFF RECOMMENDATION**

Staff recommends that the CEC find the Riverside Public Utilities' 2023 IRP, filed on June 12, 2024, under Docket Number 18-IRP-01, complete and consistent with the requirements of PUC section 9621.
