

Item 6: Energy Data Collection Regulations- Phase 3 for Natural Gas and Renewable Natural Gas Data Collection (Docket No. 25-OIR-02)

March 12, 2026, Business Meeting

Jason Orta, Gas System Specialist

Energy Assessments Division, Fuels Analysis Branch

Overview- Proposed Data Collection

Gas interval meter data

Electricity meters- monthly reporting

Daily prices

Daily gas pipeline delivery information

Reporting on gas system modifications

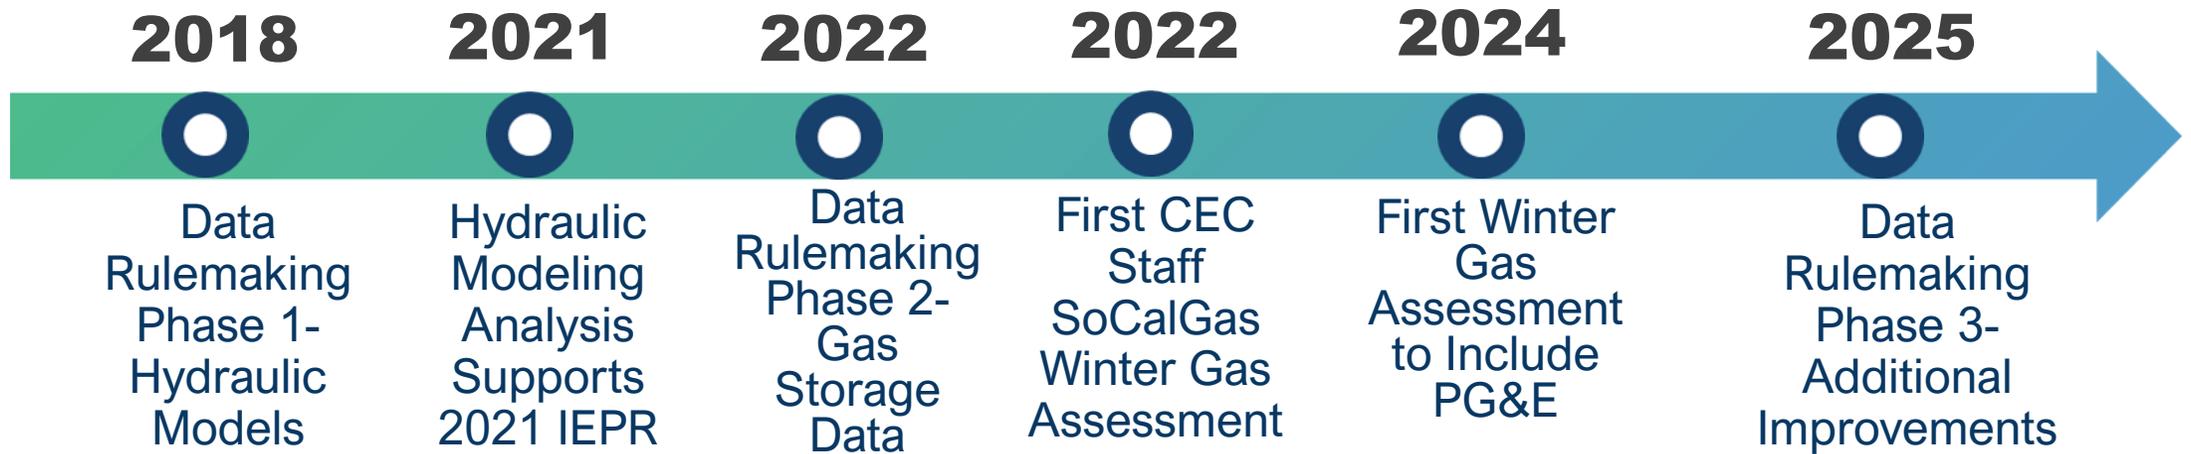

Hydrogen deliveries

RNG feedstocks, production, and deliveries

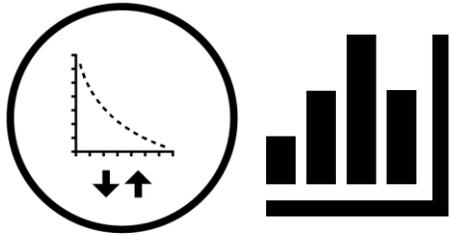

Building on Previous Data Rulemakings

Benefits to California

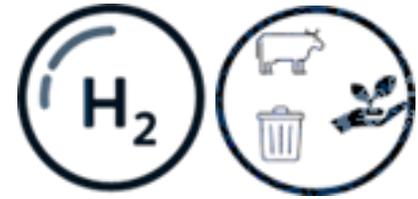

Improved gas demand and price forecasts

Better tracking of the gas transition

Enhancements to system reliability assessments

Better understanding of the roles of RNG and hydrogen in California's energy system

Staff Recommendation

Adopt proposed regulations

Adopt CEQA findings

Next steps

Prepare final statement of reasons

Submit rulemaking file to Office of Administrative Law

7/1 target for regulations to go into effect
