Addendum 2
September 27, 2019
Low Carbon Fuel Production Program**

The purpose of this addendum is to update the Low Carbon Fuel Production Program (LCFPP) Benefits Calculator Tool.

The LCFPP Benefits Calculator Tool is being updated to correct a calculation error. No changes have been made to the quantification methods and equations. Applicants should use Version 1.1 for Pre-Application Abstracts and Full Applications.

1. From page 3 of Section I.C., Key Words/Terms

Table 1: Key Words and Terms

Word/Term	Definition
AB	Assembly Bill
Applicant	An entity who submits a funding proposal under the solicitation.
Application	Formal written response to this document from applicant.
Awardee/Recipient	An applicant awarded a grant under this solicitation.
Benefits Calculator	The California Air Resources Board (CARB) developed Low Carbon Fuel Production Program (LCFPP) Benefits Calculator Tool (Version 1.1) and supporting LCFPP Quantification Methodology: www.arb.ca.gov/cci-resources .
CAM	Commission Agreement Manager

2. From page 34 of Section VI.E., Full Application Organization

Schedule of Products and Due Dates	Attachment 4
Project Team	N/A
Previous Work Products (Optional)	N/A
Budget Forms	Attachment 5
Contact List	Attachment 6
Letters of Support/Commitment	N/A
CEQA Worksheet	Attachment 7
Photographic Evidence	N/A
Localized Health Impacts Information Form	Attachment 8
LCFPP Benefits Calculator Tool (Version 1.1)	www.arb.ca.gov/cci-quantification Project Type "Low Carbon Fuels Production"

3. From page 47 of Section VI.E.15., LCFPP Benefits Calculator Tool

15. LCFPP Benefits Calculator Tool (Version 1.1)

Applicants must download the LCFPP Benefits Calculator Tool (**Version 1.1**) and the instructions from www.arb.ca.gov/cci-quantification. Full Applications must fully complete the LCFPP Benefits Calculator Tool, including the project benefits and co-benefits.

**Kevyn Piper,
Commission Agreement Officer**
