EXHIBIT C

EPIC UC TERMS AND CONDITIONS

1. Grant Agreement

This grant agreement (Agreement) between the California Energy Commission (Energy Commission, or Commission) and the Recipient is funded by the Electric Program Investment Charge (EPIC), an electricity ratepayer surcharge authorized by the California Public Utilities Commission (CPUC).

Project refers to the entire effort undertaken and planned by the Recipient, including the work co-funded by the Commission. The project may coincide with or extend beyond the Agreement period. **Project tasks** refer to the work elements of the project. Typically, there are distinct projects tasks within the project being paid for by the Commission under this Agreement.

This Agreement is comprised of the grant funding award, the Terms and Conditions, and all attachments. These Terms and Conditions are standard requirements for EPIC grant awards. The Energy Commission may impose special conditions in this grant Agreement which address the unique circumstances of this project. Special conditions that conflict with these standard provisions take precedence. Any special conditions are attached to this Agreement.

All work and/or the expenditure of funds (Energy Commission-reimbursed and/or match share) must occur within the approved term of this Agreement. The Energy Commission cannot authorize any payments until all parties sign this Agreement. The start term of this Agreement is either the specified start term or the date the Energy Commission signs the Agreement, whichever is later. The Energy Commission will only sign the Agreement after the Recipient signs it and it has been approved at an Energy Commission Business Meeting.

2. Attachments and References

The following are attached and hereby expressly incorporated into this Agreement.

- A. The funding solicitation for the project supported by this Agreement
- B. The Recipient's proposal submitted in response to the solicitation, but in the event of a conflict between the proposal and this Agreement, this Agreement prevails
- C. Confidentiality Exhibit (if applicable)
- D. Intellectual Property Exhibit (if applicable)
- E. Information Practices Exhibit (if applicable)
- F. Special Conditions (if applicable)

The federal regulations identified below are incorporated by reference as part of this Agreement. These Terms and Conditions and any Special Conditions take precedence over the regulations:

2 CFR Part 200 (See cost principles in Subpart E, Sections 200.400 et seq.
See procurement standards in Subpart D, Sections 200.317 et seq.)

3. Applicable Laws

Recipient agrees to abide by all federal, state, and local laws and regulations applicable to the project even if they are not stated in this Agreement.

Recipient also asserts that it follows the Information Practices Act (“IPA”) as codified at California Civil Code sections 1798 et seq. To the extent that Recipient will collect or otherwise have access to Personal Information as defined in the IPA in carrying out the Scope of Work of this Agreement, Recipient will follow the requirements of the IPA. Subject to applicable IPA disclosure restrictions, other applicable pre-existing use and disclosure restrictions identified in Attachment 1, or any other provisions in this Agreement, including but not limited to Confidentiality, Recipient may provide the Commission access to Personal Information collected under this Agreement only for the purpose of verifying aspects of the Recipient’s analysis. The Commission takes no ownership interest in or license to the Personal Information.

4. Due Diligence

The Recipient is required to take timely actions which, taken collectively, move this project to completion. The Commission Agreement Manager will periodically evaluate the schedule for completion of Scope of Work tasks. If the Commission Agreement Manager determines (1) the Recipient is not being diligent in completing the tasks in the Scope of Work or (2) the time remaining in the funding award is insufficient to complete all project work tasks not later than the Agreement term date, the Project Manager shall consult with the Recipient to determine whether the tasks will be completed according to schedule. If completion cannot be completed on schedule or by a mutually agreeable extension in time, the Energy Commission may, without prejudice to any of its remedies, terminate this Agreement in accordance with the Termination provisions stated in Section 12.

5. Products

Unless otherwise directed, draft copies of all Products identified in the Scope of Work shall be submitted to the Energy Commission’s Accounting Office at the address below. The Accounting Office will forward Products to the Commission Agreement Manager for review and comment. The Recipient will submit an original and two copies of the final version of all Products to the Accounting Office.

6. Reports

A. Submission of Reports

All Reports will be submitted to the Accounting Office at the address listed in Section 5 above. The Commission Agreement Manager (CAM) will provide the reporting components, style, and formatting requirements to the Principal Investigator.

B. Progress Reports

The Recipient shall prepare progress Reports on the schedule provided and in the manner and form specified in the Scope of Work. The Recipient shall prepare progress Reports, which summarize all grant activities conducted by the Recipient for the reporting period, including an assessment of the ability to complete the project within the current budget and any anticipated cost overruns.

C. Final Reports

The Recipient shall prepare a final Report outline, draft final Report and final Report on the schedule provided in the Scope of Work. The final Report shall describe the original purpose, approach, results and conclusions of the work done under this Agreement.

- C. In the event that Recipient or its subcontractor fails to perform in accordance with the foregoing standard of performance, the Commission Agreement Manager and the Recipient Project Manager shall seek to negotiate in good faith an equitable resolution satisfactory to both parties.
- D. Nothing contained in this section is intended to limit any of the rights or remedies which the Energy Commission may have under law.

15. Payment of Funds

A. Payment Requests

Unless indicated otherwise in Special Conditions, the Recipient may request payment from the Energy Commission at any time during the term of this Agreement, but no more frequently than monthly, although it is preferred that payment requests be submitted with the progress reports.

B. Accounting Procedures

The Recipient's costs shall be determined on the basis of the Recipient's accounting system procedures and practices employed as of the effective date of this Agreement, provided that the Recipient shall use generally accepted accounting principles and cost reimbursement practices. The Recipient's cost accounting practices used in accumulating and reporting costs during the performance of this Agreement shall be consistent with the practices used in estimating costs for any proposal to which this Agreement relates; provided that such practices are consistent with the other terms of this Agreement and provided, further, that such costs may be accumulated and reported in greater detail during performance of this Agreement. The Recipient's accounting system shall distinguish between direct costs and indirect costs. All costs incurred for the same purpose, in like circumstances, are either direct costs only or indirect costs only with respect to costs incurred under this Agreement.

C. Allowability of Costs

D. Audit Rights

Recipient shall maintain books, records, documents, and other evidence, based on the procedures set forth above, sufficient to reflect properly all costs claimed to have been incurred in performing this Agreement. The Energy Commission, an agency of the state or, at the Energy Commission's option, a public accounting firm designated by the Energy Commission, may audit such accounting records at all reasonable times with prior notice by the Energy Commission. The Energy Commission shall bear the expense of such audits. It is the intent of the parties that such audits shall ordinarily be performed not more frequently than once every twelve (12) months during the performance of the work and once at any time within three (3) years following payment by the Energy Commission of the Recipient's final invoice. However, performance of any such interim audits by the Energy Commission does not preclude further audit.

Recipient agrees that the Energy Commission, the Department of General Services, the Bureau of State Audits, or their designated representative shall have the right to review and to copy any records and supporting source documentation pertaining to the performance of this Agreement. Recipient agrees to maintain such records for possible audit for a minimum of three (3) years after final payment, unless a longer period of record retention is stipulated. Recipient agrees to allow the auditor(s) access to such records during normal business hours and to allow interviews of any employees who might reasonably have information related to such records. Further, Recipient agrees to include a similar right of the state to audit records and interview staff in any subcontract related to performance of this Agreement.

E. Refund to the Energy Commission

If the Energy Commission determines, that any invoiced and paid amounts exceed the actual allowable incurred costs, Recipient shall repay such amounts to the Energy Commission within thirty (30) days of request or as otherwise agreed by the Energy Commission and Recipient. If the Energy Commission does not receive such repayments, the Energy Commission shall be entitled to withhold further payments under this Agreement to the Recipient or seek repayment from the Recipient.

F. Match Funds

If the Budget includes a Match Funds requirement, the Recipient's commitment of resources, as described in this Agreement, is a required expenditure for receipt of Energy Commission funds. Grant funds will be released only if the required percentages of Match Funds are expended. The Recipient must maintain accounting records detailing the expenditure of the Match Funds (actual cash and in-kind services) reported as Match Funds expenditures on the Recipient's request for payment.

17. Indemnification

Recipient shall defend, indemnify and hold the State of California and its agencies (including the Energy Commission and the California Public Utilities Commission), their respective officers, employees and agents harmless from and against any and all liability, loss, expense, attorneys' fees, or claims for injury or damages arising out of the performance of this Agreement but only in proportion to and to the extent such liability, loss expense, attorneys' fees or claims for injury or damages are caused by or result from the negligent or intentional acts or omissions of Recipient, its officers, agents or employees.

The Energy Commission shall defend, indemnify and hold Recipient, its officers, employees and agents harmless from and against any and all liability, loss expense, attorneys' fees or claims for injury or damages arising out of the performance of this Agreement but only in proportion to and to the extent such liability, loss, expense, attorneys' fees or claims for injury or damages are caused by or result from the negligent or intentional acts or omissions of the State of California, its officers, agents or employees.

18. Workers' Compensation Insurance

No express or implied licenses or other rights are provided to the Energy Commission and CPUC under any patents, patent applications, or other proprietary rights of the Recipient.

Upon the Commission Agreement Manager's request, the Recipient will provide the Commission Agreement Manager and any reviewers designated by the Energy Commission or the CPUC with access to review the Recipient's Project-relevant Intellectual Property and Project-relevant Pre-existing Data. If such Project-relevant Intellectual Property or Project-relevant Pre-existing Data has been designated as Confidential Information as specified in Section 19, the Energy Commission will only disclose it under the circumstances specified in Title 20 CCR Sections 2506, 2507, and 2508.

iii. Preservation of Project-Relevant Intellectual Property

The Recipient will preserve any of its Project-relevant Intellectual Property at its own expense for at least five (5) years from the Agreement's end date or until the timeframe in Recipient's retention policy, whichever is longer. Notwithstanding the foregoing, Recipient has the sole right but not the obligation to prosecute or maintain patent protection for any of its Project-relevant Intellectual Property at any time.

The Energy Commission and the CPUC will have reasonable access to the Project-relevant Intellectual Property and Project-relevant Pre-existing Data throughout the retention period for purposes specified in this Section 20 of the Agreement.

- C. All terms of this Section 20 above will be flowed down to Subcontractors, including the access rights to Project-relevant Intellectual Property and Project-relevant Pre-existing Data in part B.ii.

21. Intellectual Property

A. Ownership

Except as otherwise specified in this Agreement, the Recipient owns all Intellectual Property created, conceived or reduced to practice, discovered, made, developed, or altered by Recipient in the performance of this Agreement.

B. Data Rights

- i. Pre-existing Data that will be included as a deliverable under this Agreement will be identified in Attachment 1. If the Commission provides its own pre-existing data, the Commission shall mark all such data, and Recipient and its subcontractors may only use it for purposes of the Scope of Work of this Agreement, unless such data is otherwise publicly available.
- ii. At the Commission's expense for actual cost of duplication and delivery, Recipient shall deliver additional Project Data that is specifically requested by the Commission.

- iii. The Commission and CPUC shall have the unrestricted right to use the Deliverable Data and delivered Project Data, subject to applicable pre-existing use and disclosure restrictions identified in Attachment 1 and other provisions in this Agreement, including but not limited to Confidentiality.
- iv. The Recipient shall have the unrestricted right to use Project Data, subject to applicable use and disclosure restrictions identified in Attachment 1 and other provisions in this Agreement, including but not limited to, Confidentiality.

C. Copyrights

- i. All rights in Copyrightable Works other than Reports first created by the Recipient are the property of the Recipient. Unless pre-existing restrictions are listed under Attachment 1, the Recipient grants The State of California, including the Commission, a fully paid-up, royalty-free, non-exclusive, non-transferable, non-sublicensable, irrevocable license to reproduce, prepare derivative works, distribute copies, perform publicly, and display publicly Copyrightable Works specified for delivery to the Commission in the Scope of Work, to fulfill the State of California's governmental purposes, including the Commission's statutory objectives.
- ii. Notwithstanding C.i. directly above, when the purpose of the Scope of Work is specifically to create a Copyrightable Work for use by the Commission and that fact is indicated in the Scope of Work, then all rights in such Copyrightable Work will be the property of the Commission. The Commission grants to Recipient a fully paid-up, royalty-free, non-exclusive, non-transferable, non-sublicensable, irrevocable license to reproduce, prepare derivative works, distribute copies, perform publicly, and display publicly such Copyrightable Work for educational and research purposes and to allow other educational and nonprofit institutions to do so for educational and research purposes.
- iii. Upon written request and subsequent amendment, the Commission may request delivery of computer software that is not identified as a Product, but was first created by the Recipient in the performance of the Scope of Work. To the extent the Recipient is legally able to do so, Recipient shall grant the State of California, including the Commission, a fully paid-up, royalty-free, nonexclusive, non-transferable, non-sublicensable, irrevocable license to reproduce, prepare derivative works, distribute copies, perform publicly, and display publicly such software to fulfill the State of California's governmental purposes, including the Commission's statutory objectives, subject to restrictions, if any, identified in Attachment 1.
- iv. Copyrightable Works that may be patentable are also subject to the Patent Rights clause, which will take precedence in case of a conflict.

- v. The Commission may direct Recipient to issue a no-cost, non-exclusive, non-sublicensable, irrevocable, royalty-free, worldwide, perpetual license to Copyrightable Works described in subparagraphs i. and iii. above to Load-serving entities and/or the third parties working with a Load-serving entity, for the Load-serving entity's use in enhancing its service to EPIC ratepayers. This license is for **non-commercial purposes**, meaning that it does not allow Load-serving entities to sell, commercially offer or distribute Copyrightable Works to others or in the marketplace. For example, if the Recipient creates copyrightable software, the Commission can give a Load-serving entity the right to use the software as part of its operations of providing service to EPIC ratepayers, but the Load-serving entity cannot sell or distribute the software.

D. Patent Rights

- i. Subject to the requirements of law, all rights to any Subject Inventions shall belong to the Recipient. The State of California, including the Commission, shall have a no-cost, non-exclusive, non-transferable, non-sublicensable, irrevocable, royalty-free, worldwide, paid-up license to practice, or have practiced, such Subject Invention for governmental purposes, including the Commission's statutory objectives. A confirmatory license will be executed by the Recipient to provide said license to any such Subject Invention, within ninety (90) days after filing of patent application. Notwithstanding the foregoing and except if the Commission exercises March-in Rights, Recipient has the sole right but not the obligation to prosecute or maintain patent protection for any Subject Invention at any time.
- ii. The Commission may direct Recipient to issue a no-cost, non-exclusive, non-sublicensable, irrevocable, royalty-free, worldwide, paid-up license to Subject Inventions to Load-serving entities and/or third parties working with a Load-serving entity, solely to practice Subject Inventions for non-commercial purposes, so as to enhance the Load-serving entities' service to EPIC ratepayers. This license is for **non-commercial purposes**, meaning that it does not allow Load-serving entities to sell, commercially offer or distribute patentable works to others or in the marketplace. For example, if the Recipient creates patentable software, the Commission can give a Load-serving entity the right to use the software as part of its operations of providing service to EPIC ratepayers, but the Load-serving entity cannot sell or distribute the software.

- iii. If any Subject Invention that is subject to the licenses above has been designated as Confidential Information as specified in Section 19, all license holders will only disclose the Subject Invention under the circumstances specified in Title 20 CCR Sections 2506, 2507, and 2508. All license holders will ensure that their officers, employees, and subcontractors who have access to the Subject Invention are informed of and abide by the disclosure limitations in Section 19.
- iv. Copyrightable Works that may be patentable are also subject to the Patent Rights clause, which will take precedence in case of a conflict.

E. Energy Commission's Rights to Subject Inventions

i. March-in Rights

With respect to any Subject Invention in which Recipient has title and to the extent permissible under Federal laws and regulations, the Energy Commission shall have the right to require Recipient or Recipient's Licensee to grant a nonexclusive, partially exclusive, or exclusive license in any field of use to a responsible applicant, upon terms that are reasonable under the circumstances, if the Energy Commission determines that: a) the Recipient or Recipient's Licensee has not taken, or is not expected to take within a reasonable time, effective steps to achieve practical application of the Invention; or b) action is necessary to alleviate health or safety needs that are not reasonably satisfied by Recipient or Recipient's Licensee. If the Recipient or Recipient's Licensee refuses such request, the Commission may grant such a license itself. The parties may refer to the Federal Government's procedures for handling march-in rights.

ii. Notice of Patent

If any patent is issued for a Subject Invention, the Recipient will send the Commission Agreement Manager and Commission Agreement Officer written notice of the issuance within three (3) months of the issuance date. The notice must include the patent title, issuance number, and a general description of the Subject Invention.

iii. Legal Notice

The Recipient and all persons and/or entities obtaining an ownership interest in Subject Inventions must include the following statement within the specification of any United States patent application, and any subsequently issued patent for the invention:

“This invention was made with State of California support under California Energy Commission grant number EPC-17-033. The Energy Commission has certain rights to this invention.”

F. Access to and Preservation of Subject Inventions and Copyrightable Works

i. Access

Upon the Commission Agreement Manager's request, the Recipient will provide the Commission Agreement Manager and any individuals designated by the Commission or the CPUC with access to the Recipient's Subject Inventions and to Copyrightable Works which are subject to Sections 21.C.i and 21.C.iii., in order to exercise the licenses described above, and to determine any royalty payments due under the Agreement.

ii. Preservation

The Recipient will preserve Subject Inventions and Copyrightable Works which are subject to Sections 21.C.i and 21.C.iii, in order to exercise the licenses described above, at its own expense for at least ten (10) years from the Agreement's end date or until the timeframe in Recipient's retention policy, whichever is longer. Notwithstanding the foregoing, Recipient is not obliged under this Agreement to obtain or maintain any intellectual property protection for Subject Inventions. Recipient has the sole right but not the obligation to file a patent application for a Subject Invention, but Recipient will file and prosecute a patent application for any Subject Invention which a Licensee has a license under Section 21.D.ii., upon written request by such Licensee and at Licensee's expense.

G. All terms of this Section 21 above will be flowed down to Subcontractors.

22. Royalty Payments to the Energy Commission

A. In consideration of the Commission providing funding to the UC, UC agrees to pay the Commission a portion of either Net Revenues or Net Royalties under the terms and conditions hereinafter set forth. If federal funds are used in the conception or reduction to practice of a Subject Invention, such Net Revenues or Net Royalties shall be used by the State of California in a manner consistent with Title 35 United States Code (USC), Section 202, subdivision (c)(7) to the extent this USC Section applies).

i. Net Royalties. The UC's obligation to make payments to the Commission shall commence from the date that the Net Royalties calculation is positive and extend until ten (10) years from the Agreement's end date. Payments are payable in annual installments and are due the first day of March for Net Royalties calculation made for the UC's prior fiscal year. UC agrees to pay to Commission an amount equivalent to 10% of the total cumulative Net Royalties, less payments made by UC to Commission in previous years when Net Royalties were positive. Payments shall be made by check and made payable to the California Energy Commission, EPIC Fund.

- ii. Net Revenues. If the UC is the licensee, the UC's obligation to make payments to the Commission shall commence upon the first sale of the Licensed Product. Payments are payable in annual installments and are due the first day of March for the prior fiscal year of the UC and extend until ten (10) years from the Agreement's end date. UC agrees to pay an amount equivalent to 1.5% of the Net Revenues by check made payable to the California Energy Commission, EPIC Fund.
- B. If a Licensed Product was developed in part with Match Funds during the Agreement term, the Net Royalty payments will be reduced in accordance with the percentage of such development activities that were funded with Match Funds. For example, if 20% of the development activities were funded with Match Funds during the Agreement and total cumulative Net Royalties equaled \$100,000 in one year, the Recipient would owe the Energy Commission \$8,000 for the year (10% of \$100,000 = \$10,000; 80% of \$10,000 = \$8,000 (the 80% coming from 100% - 20% in match funds)).

If the Energy Commission is providing funds to the Recipient under this Agreement as a project match partner and Energy Commission funds are used in part to develop a Licensed Product, the Net Royalty payments will be reduced in accordance with the percentage of such development activities that were funded with non-Energy Commission funds during the Agreement term. For example, if 80% of the development activities were funded with Recipient and/or third party funds during the Agreement and Net Royalties totaled \$100,000 in one year, the Recipient would owe the Energy Commission \$2,000 for the year (10% of \$100,000 = \$10,000; 20% of \$10,000 = \$2,000 (the 20% coming from 100% - 80% in match funds)).
- C. Unless the Recipient makes an early buyout, total Net Royalty or Net Revenue payments will be limited to three (3) times the amount of funds paid by the Energy Commission under the Agreement. The Recipient may make an early buyout payment to the Energy Commission without a pre-payment penalty, as an alternative to making annual royalty payments for ten (10) years following the Agreement's end date. The payment must be in a lump sum amount equal to one and a half (1.5) times the amount of funds paid by the Energy Commission under the Agreement and made within five (5) years of the Agreement's end date. The payment amount due under the early buyout option will not be reduced by the percentage of Match Funds as described above.
- D. UC agrees not to make any sale, license, lease, gift or other transfer of any Project Data Subject Invention, Copyrightable Work or Licensed Product with the intent of, or for the purpose of, depriving Commission of Net Royalties or Net Revenues hereunder. Generally, this means that the UC will not make any sale, license, lease or other transfer of Project Data, Subject Invention, Copyrightable Work or Licensed Product for consideration other than fair market value except for research, educational, or other mutually agreed to purposes intended to serve the public benefit.

- E. UC shall maintain separate accounts within their financial and other records for purposes of tracking royalties and revenues due to the Commission under this Agreement.
- F. Audits on Payments to Commission. Payments to the Commission are subject to the Audit clause.
- G. Defaults. In the event of default hereunder, the Commission shall be free to exercise all rights and remedies available to it herein, and under law and at equity. UC's failure to pay when due, any amount due and payable under the terms of this contract constitutes a default under this Agreement.

The Act states that "Grantees are authorized to use grant money for publication costs, including fees charged by a publisher for color and page charges, or fees for digital distribution." Recipient agrees that for purposes of this Agreement, the Recipient is only authorized to use funds under this Agreement, including Matching funds, for these purposes **if the expenses are included in the Agreement's Budget and meet the other Agreement requirements for payment, including that the Commission will only reimburse the Recipient for expenditures incurred during the Agreement term. If these expenses are not included in the Budget, both parties must agree and amend the Budget to include such expenditures before Recipient is authorized to use Agreement funds, either reimbursable expenses or match, for these purposes.**
