

**2019 Building Energy Efficiency Standards,  
California Code of Regulations, Title 24,  
Parts 1 and 6**

**Docket: 19-BSTD-01  
Approval: 19-110319**

**APPROVAL BY THE EXECUTIVE DIRECTOR OF THE PUBLIC DOMAIN  
NONRESIDENTIAL COMPLIANCE SOFTWARE CBECC-COM 2019.1.1**

The executive director hereby approves California Building Energy Code Compliance (CBECC) software, CBECC-Com 2019.1.1, as the public domain alternative calculation method for demonstrating performance compliance with the nonresidential provisions of the *2019 Building Energy Efficiency Standards (2019 Energy Code)*, California Code of Regulations, Title 24, Part 6, and associated administrative regulations in Part 1, Chapter 10.

The Warren-Alquist State Energy Resources Conservation and Development Act, Public Resources Code § 25000 et seq., 25402.1(b), requires the California Energy Commission (CEC) to, among other things, establish a process for certifying calculation methods for demonstrating compliance with its building energy efficiency standards.

CBECC-Com 2019.1.1 incorporates bug fixes and minor new features that do not change compliance results. When CBECC-Com 2019.1.0 was approved on May 15, 2019, the CEC directed the executive director to take all actions reasonably necessary to ensure that CBECC-Com is maintained and revised to accurately estimate the energy use of nonresidential buildings and demonstrate compliance with the *2019 Energy Code*.

This update does not change compliance with the *2019 Energy Code*<sup>1</sup> and it qualifies as a 1.4.1 change not requiring CEC approval pursuant to the *2019 Alternative Calculation Method Approval Manual*<sup>2</sup>.
