GFO-21-604 Pre-Application Workshop
Rural Electric Vehicle (REV) Charging Solicitation

Fuels and Transportation Division
January 5, 2022 | 10:00 am
Workshop Agenda

• Welcome and Introductions
• Solicitation Overview
• Application Components
• Application Evaluation
• Application Submittal
• Questions & Answers
• Next Steps
• Adjourn
Housekeeping

- Workshop is recorded on Zoom
- Grant Funding Opportunity Webpage: https://www.energy.ca.gov/solicitations/2021-12/gfo-21-604-clean-transportation-program-rural-electric-vehicle-rev-charging
- Virtual participation via Zoom or telephone during the Q&A period
- Written Questions to Commission Agreement Officer: Angela Hockaday, Angela.Hockaday@energy.ca.gov
  Subject: GFO-21-604
  Deadline: January 19, 2022 by 5:00 PM
Commitment to Diversity

The CEC adopted a resolution strengthening its commitment to diversity in our funding programs. The CEC continues to encourage disadvantaged and underrepresented businesses and communities to engage in and benefit from our many programs.

To meet this comment, CEC staff conducts outreach efforts and activities to:

• Engage with disadvantaged and underrepresented groups throughout the state;

• Notify potential new applicants about the CEC’s funding opportunities;

• Assistant applicants in understanding how to apply for funding from the CEC’s programs;

• Survey participants to measure progress in diversity outreach efforts.
Diversity Survey

One Minute Survey

The information supplied will be used for public reporting purposes to display anonymous overall attendance of diverse groups.

Zoom Participants, please use the link in the chat to access the survey or scan the QR code on the left of the screen with a phone or tablet to access the survey.

Survey will be closed at the end of the day.

Survey Link:

Clean Transportation Program

- Established in 2007 by Assembly Bill 118 (2007)
- Extended to January 1, 2024, by Assembly Bill 8 (2013)
- Provides approximately $95 million of funding per year through 2023
- Investment Plan determines funding allocations across various categories
- Supports workforce training and development
Policy Drivers

• **2021-2023 Investment Plan Update for the Clean Transportation Program**

• **Assembly Bill 2127 Electric Vehicle Charging Infrastructure Assessment – Analyzing Charging Needs to Support Zero-Emission Vehicles in 2030**

• **California Electric Vehicle Infrastructure Deployment Assessment: Senate Bill 1000 Report**

• **Senate Bill 350 Low-Income Barriers Study, Part B: Overcoming Barriers to Clean Transportation Access for Low-Income Residents**

• **Executive Order N-79-20**

Solicitation Manual pp. 8-9, “Reference Documents”
Solicitation Overview

Rural Electric Vehicle (REV) Charging Solicitation
Solicitation Process

Pre-Solicitation Workshop
June 2021

Solicitation Release
December 14, 2021

Applications Due
March 11, 2022

Notice of Proposed Awards
May 2022

CEC Business Meeting
Q3 2022

Project Start
Q3 2022
Purpose of Solicitation

- Competitive grant solicitation
- Projects for rural residents that will:
  - Demonstrate replicable and scalable light-duty electric vehicle (EV) charging business and technology models
  - Increase EV charging access
  - Support electric miles traveled and enable greater EV adoption
Available Funding

• $4,800,000 total is available under this solicitation

• The minimum grant award per project is $500,000

• The maximum grant award per project is 80% of the total project cost or $1,600,000 (whichever is less)
## Distribution of Funding

<table>
<thead>
<tr>
<th>Project Region</th>
<th>Counties</th>
<th>Available Funding per Region</th>
</tr>
</thead>
<tbody>
<tr>
<td>North</td>
<td>Butte, Colusa, Del Norte, Glenn, Humboldt, Lake, Lassen, Mendocino, Modoc, Nevada, Plumas, Shasta, Sierra, Siskiyou, Tehama, Trinity</td>
<td>$1,600,000</td>
</tr>
<tr>
<td>Central</td>
<td>Alpine, Amador, Calaveras, El Dorado, Fresno, Inyo, Kings, Madera, Mariposa, Merced, Mono, Placer, San Joaquin, Stanislaus, Sutter, Tulare, Tuolumne, Yolo, Yuba</td>
<td>$1,600,000</td>
</tr>
<tr>
<td>South</td>
<td>Imperial, Kern, Monterey, Riverside, San Benito, San Bernardino, San Luis Obispo, Santa Barbara, Ventura</td>
<td>$1,600,000</td>
</tr>
</tbody>
</table>

Certain counties and cities are ineligible locations under this solicitation.

Solicitation Manual pp. 6, 13-14
Applications and Awards

- Applicants may submit multiple applications.
- Applicants are eligible for no more than two-thirds of the total solicitation funding.
- The highest ranked projects with at least the minimum passing score will be recommended for funding until all funds available under this solicitation are exhausted.

Solicitation Manual pp. 5-7
Eligible Applicants

• This solicitation is open to all public and private entities.
• Engagement with local community-based organizations is encouraged.
Eligible Projects

Eligible projects include, but are not limited to, any combination of the following:

- Widespread strategic deployment models
- Fast charging corridors
- Charging in rural community centers
- Low-power on-site charging
- Streetlight or utility pole charging
- Mobile chargers
- Renewable distributed energy resources (DERs) and energy storage systems

Projects must include deployment and installation of chargers.

Solicitation Manual pp. 12-13
Project Requirements

- At least 50% of total project costs in disadvantaged or low-income communities
- 97% uptime for a period of 5 years from commissioning
- Chargers that are available at least 18 hours per day
- Chargers that provide customer support service and multiple point-of-sale methods
- Well-lit charging locations and parking areas with adequate signage

Solicitation Manual pp. 12-17
Charging Equipment Requirements

• Different requirements for DCFC, Level 1, and Level 2 chargers.

• Examples:
  • Requirements for CCS or SAE J1772 standard cords
  • Tesla and CHAdeMO connectors are allowed

• See solicitation manual for complete list of charging equipment requirements.

Solicitation Manual pp. 15-16
AB 841 (Ting, 2020) added Public Utilities Code (PUC) section 740.20, which requires Electric Vehicle Infrastructure Training Program (EVITP) certification to install electric vehicle charging infrastructure and equipment for work performed on or after January 1, 2022, subject to certain exceptions.

The CEC is applying the EVITP certification requirements to project work resulting from this GFO, regardless of whether it might be performed prior to January 1, 2022, unless an exception applies.

Information on EVITP training is available at https://evitp.org/evitp-training-la/
### Eligible Project Costs

#### Examples of Eligible Project Costs
- EVSE
- Transformers
- Electric panels
- Conduit
- Wiring
- Meters
- DERs or energy storage equipment/systems capable of providing power to EV chargers
- Photovoltaic solar panels separately metered for electric charging
- Installation costs
- Planning and engineering design costs
- Stub-outs
- Demand management equipment
- Equipment warranties
- Maintenance, maintenance agreement
- Local engagement and outreach on rural EV charging

#### Examples of Project Costs that are NOT Eligible
- Vehicle purchases
- Standard outlets (110/120 volt or 220/240 volt)
- Nonrenewable distributed energy resources
- Distribution grid or other equipment costs that are otherwise covered by programs or tariff rules of the electric utilities
- Paper studies or research projects
- Projects that are primarily surveys
- Proposals for vehicle demonstrations or demonstrations of existing technologies

*Solicitation Manual pp. 17-18*
Match Funding Requirements

• Match must be at least 20% of the total project costs.

• Match can be in the form of cash and/or in-kind match.

Example Calculation:

• Total project cost is $1,800,000

• Match share contribution must be at least $360,000
  • $360,000 ÷ $1,800,000 = 20%
  • CEC cost would be no more than $1,800,000 - $360,000 = $1,440,000
Application Components

Rural Electric Vehicle (REV) Charging Solicitation
## Application Organization

<tr>
<td>Operation and Maintenance Plan</td>
<td>Create document</td>
</tr>
</tbody>
</table>
• Applicants must include a completed full Application Form which describes the project, funds requested, partnerships, applicant eligibility, and other information

• Signature requirement on the application form is waived
Project Narrative

- Applicants must submit a project narrative

- The project narrative must respond to each scoring criterion described in the Evaluation Criteria (pp. 38-40 of the solicitation manual)

- Limit is 25 pages

- Must provide a table of contents

- Use 11-point font, single-spaced, and a blank line between paragraphs

Solicitation Manual pp. 23-29

a. Project Implementation and Readiness

1) Detail project goals and objectives.
2) Describe how the project will address the rural communities’ needs for charging infrastructure and supports travel by rural residents.
3) Describe how the project will demonstrate a replicable and scalable business model that provides convenient and accessible EV charging for rural areas.

<table>
<thead>
<tr>
<th>Criterion</th>
<th>Possible Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Project Implementation and Readiness</td>
<td>35</td>
</tr>
</tbody>
</table>

Applications will be evaluated on the degree to which:

- The project will support the stated goals of this solicitation.
- The project addresses the rural communities’ needs for charging infrastructure and supports travel by rural residents.
- The project demonstrates a replicable and scalable business model to provide convenient and accessible EV charging for rural areas.
Scope of Work (Attachment 2)

- Applicants must complete Attachment 2
- Describe exactly what the project will do
- Identify what will be delivered to the CEC
- Be sure to include in the technical tasks:
  - Descriptive language on the work that the project will conduct to address requirements in Section II.B Project Requirements
  - At least one deliverable per technical task.
Schedule of Products and Due Dates (Attachment 4)

- Applicants must complete Attachment 4
- Add task names and deliverables that correspond to the Scope of Work
- Provide realistic dates on when deliverables can be completed
Budget (Attachment 5)

- Applicants must complete Attachment 5
- Follow Budget Instructions
- Identify how CEC funds and match funds will be spent to complete the project
- All reimbursable costs must be incurred within the approved term of the funding agreement

For more information on updates to the CEC budget forms, visit the CEC ECAMS Resources webpage at https://www.energy.ca.gov/funding-opportunities/funding-resources/ecams-resources

Solicitation Manual pp. 29-31
Resumes

• Applicants must include resumes for key personnel identified in the application

• Resumes are limited to a maximum of 2 pages each
Contact List (Attachment 6)

- Applicants must include a completed Contact List by including the appropriate points of contact for the Applicant.
- The CEC will complete the CEC points of contact during agreement development.
Letters of Support/Commitment

- Applicants must include certain Commitment Letters
  - From entities or individuals that are committing match funding
  - From key project partners that will make contributions to the project
- Support letters are optional
- Limit of two pages per letter

Solicitation Manual pp. 31-32
• Applicants must submit a completed CEQA Worksheet to determine CEQA compliance obligations.

• The CEC requires this information to assist with our CEQA determinations.
Applicants must complete and submit a Local Health Impacts Information Form.

The CEC requires this information for a localized health impacts report.
Past Performance Reference Form (Attachment 10)

• Applicants must complete Attachment 10 to provide references for:
  • Agreements with the CEC in the last 10 years
  • The five most recent agreements with other public agencies within the past 10 years

• Include contact information. References may be contacted by CEC staff.

• Applicants must fill out a separate Past Performance Reference Form for each agreement received by the applicant.

Solicitation Manual p. 33
Operation and Maintenance Plan

• Applicants must submit an Operation and Maintenance Plan
• Refer to page 33 of the solicitation manual for a detailed description of what to include in the Plan
• Explain who will be responsible for operating and maintaining charging equipment and who will cover these costs
• Explain how the uptime and customer service project requirements will be met
• Limit the plan to 10 pages
Application Evaluation

Rural Electric Vehicle (REV) Charging Solicitation
How Will My Application Be Evaluated?

Stage One: Application Screening

- Administrative Screening Criteria (Pass/Fail)
- Technical Screening Criteria (Pass/Fail)
- Past Performance Criteria (Pass/Fail)

Stage Two: Application Technical Evaluation and Scoring

*Applicants must pass ALL screening criteria, or the application shall be disqualified and eliminated from further evaluation.

Solicitation Manual pp. 34-36
### Administrative Screening Criteria

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Pass/Fail</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. The application is received by CEC’s Contracts, Grants, and Loans Office by the due date and time specified in the “Key Activities Schedule” in Section I of this solicitation.</td>
<td>Pass or Fail</td>
</tr>
<tr>
<td>2. The applicant provides the required authorizations and certifications.</td>
<td>Pass or Fail</td>
</tr>
<tr>
<td>3. The applicant has not included a statement that is contrary to the required authorizations and certifications.</td>
<td>Pass or Fail</td>
</tr>
</tbody>
</table>
## Technical Screening Criteria

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Pass/Fail</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. The Applicant is an eligible applicant.</td>
<td>Pass or Fail</td>
</tr>
<tr>
<td>2. The project is an eligible project.</td>
<td>Pass or Fail</td>
</tr>
<tr>
<td>3. The applicant meets the minimum match share requirement, if any.</td>
<td>Pass or Fail</td>
</tr>
<tr>
<td>4. The applicant passes the past performance criterion.</td>
<td>Pass or Fail</td>
</tr>
</tbody>
</table>
Past Performance Screening

1. An Applicant may be disqualified due to severe performance issues characterized by significant negative outcomes under one or more prior or active CEC agreement(s) within the last 10 years.

2. Any applicant that does not have an active or prior agreement equates to no severe performance issues and therefore would pass this screening criteria.
Application Technical Evaluation and Scoring

• The Evaluation Committee applies the scoring scale to the evaluation criteria.

• Applications must obtain a minimum passing score of 70% or 70 points in order to be considered for funding.

• Review Section IV of the solicitation manual and ensure the application provides a clear and complete response to each scoring criteria.

Solicitation Manual pp. 36-37

Solicitation Manual pp. 38-40
Applications will be evaluated on the degree to which:

- The project will support the stated goals of this solicitation.
- The project addresses the rural communities’ needs for charging infrastructure and supports travel by rural residents.
- The project demonstrates a replicable and scalable business model to provide convenient and accessible EV charging for rural areas.
- The project provides outreach to rural communities and engages potential end users and site hosts.
- The project supports any applicable local and regional plans for EV readiness.
- The proposed charging equipment has features to deter or prevent vandalism, or any other features to reduce potential downtime.
- Project lighting will effectively illuminate charging area and the project will result in safe charging environments.
- The applicant proposes clear, detailed, and convincing strategies in the Operation and Maintenance Plan to ensure 97% charger uptime and customer satisfaction. Operation of charging equipment and supporting elements will result in accessible, convenient, and reliable infrastructure that is most appropriate for the identified rural community(ies).
- The project team will engage local community-based organizations and residents in decision-making processes throughout the term of the CEC funded agreement to ensure that the project continues to benefit rural residents.
- Local engagement and outreach funds, if applicable, are necessary to support successful implementation and operation of the project.
- The project will mitigate potential damage to the charging equipment and supporting elements from extreme weather typically experienced in the deployment area.
- Customer support service will adequately address customer concerns at the charging site.
- Completion dates are reasonable and demonstrate that the project can be successfully implemented.
Applications will be evaluated on the degree to which:

- Site selection reflects the needs and inputs of rural community(ies).
- The applicant has conducted preliminary site analysis and completed preliminary site design. If sites are not identified or secured, appropriate sites will be quickly identified and secured.
- Letters of support or commitment from site hosts, utilities, and other project partners demonstrate the applicant has identified project sites and the sites are secured.
- The site(s) are located in low-income communities and/or disadvantaged communities.
- The project avoids undeveloped greenfields and/or uses brownfields.
- The site(s) will be safe, accessible, and convenient.
- The site(s) optimizes the distance between existing DC fast chargers. If additional DC fast chargers are needed in an area with existing DC fast chargers, the applicant clearly explains how the DC fast charger addresses requirements identified by the rural community.
Applications will be evaluated on the degree to which:

• The project will benefit rural residents and communities, including emission reductions, public health, economic, and cost-saving benefits.

• The project maximizes benefits for low-income and disadvantaged communities.

• The project exceeds the required percentage of funding in low-income and disadvantaged communities.

• The project provides economic benefits and cost savings.

• The project minimizes the cost of charging to drivers, and assumptions utilized are documented and reasonable.

• The proposed project results in high benefit-cost score defined as the ratio of grams of CO₂ equivalent reduction per dollar of Energy Commission investment for the proposed project term.

• The project maximizes the dissemination of data, results and lessons for knowledge transfer and advancement of charging to serve rural residents.

• The proposed project will continue beyond the term of the Energy Commission’s funding agreement.
Applications will be evaluated on the degree to which:

- The project is innovative and fits the built environment, use case, and vehicle types of the identified rural community.
- The project implements vehicle-grid integration operations, if applicable.
- The project addresses limited power distribution capacity and/or mitigates negative grid impacts, if applicable.
- The project demonstrates the ability to improve resiliency of California’s grid and response to extreme weather events and other emergencies.
- The project will continue project operations beyond the term of the CEC funding agreement.
Team Qualifications (10 points)

Applications will be evaluated on the degree to which:

• The project team’s qualifications (including relevant expertise, experience, and skill sets) are suitable to the tasks described in the proposed scope of work.

• The applicant and project team have demonstrated exceptional administrative and technical performance under existing or prior funding agreements.

• The applicant demonstrates the ability to develop milestones and deadlines, and successfully complete milestones associated with large, complex projects.

• Team member and key project partner functions are fully documented, complete and appropriate for project implementation.
Project Budget (10 points)

Applications will be evaluated on the degree to which:

• The project budget is justifiable and reasonable relative to the project goals, objectives, and tasks defined in the scope of work.

• The project minimizes administrative and overhead costs for reimbursement.

• The match funding commitments, if required, are documented, verifiable, and necessary to support the successful completion of the project.
Special Note on Terms and Conditions

Rural Electric Vehicle (REV) Charging Solicitation
Terms and Conditions

- The Terms and Conditions are changing with ECAMS.

- Attachment 9 includes the pre-ECAMS Clean Transportation Program Terms and Conditions, plus Appendix 1 that explains streamlining grant terms and conditions that the CEC is implementing.

- Appendix 1 reflects updated terms and conditions that will apply to agreements that result from this solicitation.

- More information is on the ECAMS Resources webpage at https://www.energy.ca.gov/funding-opportunities/funding-resources/ecams-resources.
Application Submittal

Rural Electric Vehicle (REV) Charging Solicitation
GFO Submission Requirements (Electronic)

- Method of delivery is the CEC’s Grant Solicitation System, available at: https://gss.energy.ca.gov

- First time users must register as a new user to access system.

- Electronic files must be in Microsoft Word (.doc, .docx) and Excel (.xls, .xlsx) formats, unless originally provided in the solicitation in another format.

- Until further notice, any requirement in CEC solicitations to provide a signature is waived (even if it is in the screening criteria). No signature, even electronic is necessary.

  - Notice on CEC’s waiver of the signature requirement is available at https://www.energy.ca.gov/funding-opportunities/solicitations

Solicitation Manual pp. 23 - 24
Submit applications early!

The GSS system will stop accepting application documents promptly at the deadline of 11:59 p.m. on March 11, 2022.
GFO Submission Resources

• **How to Apply** via the Grant Solicitation System: https://www.energy.ca.gov/media/1654.

• This presentation explains how to:
  • Create an account
  • Create a new application
  • Select the correct solicitation
  • Upload application files
  • Edit application
  • Review and submit
  • Tips and Frequently Asked Questions
