

California Energy Commission Career Fair

September 29, 2022

The Energy Commission
is committed to promoting
a **clean, affordable, and reliable**
energy supply for **all Californians.**

CALIFORNIA ENERGY COMMISSION

OUR FIVE COMMISSIONERS

David Hochschild
Chair

Siva Gunda
Vice Chair

J. Andrew McAllister
Commissioner

Patty Monahan
Commissioner

Kourtney Vaccaro
Commissioner

Leading the state to a 100% clean energy future.

PRIMARY FUNCTIONS OF THE CALIFORNIA ENERGY COMMISSION

Advancing State Energy Policy

Investing in Energy Innovation

Developing Renewable Energy

Preparing for Energy Emergencies

Achieving Energy Efficiency

Transforming Transportation

Overseeing Energy Infrastructure

Intergovernmental Collaboration

WHY JOIN US?

- Influence climate and energy policy across the United States and the world.
- Take advantage of career mobility and advancement, including a remote-friendly workplace.
- Work in an environment where diversity, equity, and inclusion values are translated into action and enable each employee to thrive.
- Enjoy generous healthcare and retirement benefits.

JUSTICE, ACCESS, EQUITY, AND INCLUSION (JAEDI)

Focus: Internal

Purpose: Advance JAEDI for and within workforce

Focus: External

Purpose: Advance JAEDI to increase benefits for and participation by the public and stakeholders

JUSTICE, ACCESS, EQUITY, AND INCLUSION (JAEDI)

How are staff involved?

- Five workforce-focused subcommittees
- Eight affinity-based employee resource groups
- Workplace connection-focused employee synergy groups
- Task force meetings open to all employees
- Annual Unity Celebration
- Annual diversity report

NAVIGATING THE STATE HIRING PROCESS

1. Create your CalCareers account.
2. Search for job openings.
3. Take the exam.
4. Apply for the position.

Learn how to apply for jobs at: <https://www.energy.ca.gov/careers>

LEARN MORE TODAY ABOUT:

- Chief Counsel's Office
- Efficiency Division
- Energy Data and Analytics Office
- Energy Assessments Division
- Energy Research and Development Division
- Fuels and Transportation Division
- Information Technology Services Branch
- Recruiting and Outreach Unit
- Renewable Energy Division
- Siting, Transmission, and Environmental Protection Division

BREAKOUT ROOMS

CHIEF COUNSEL'S OFFICE

Serves as a full-service legal office for the organization, including representing the California Energy Commission in administrative and judicial proceedings.

<https://www.energy.ca.gov/about/divisions-and-offices/chief-counsels-office>

EFFICIENCY DIVISION

- Develops and implements regulations, policies, and programs that facilitate California's energy and water conservation climate goals.
- Four branches:
 - Appliances
 - Building standards
 - Existing buildings
 - Standards compliance
- Cross-cutting efficiency activities:
 - Building decarbonization
 - Load flexibility
 - Resiliency
 - Affordability and equity

<https://www.energy.ca.gov/about/divisions-and-offices/efficiency-division>

ENERGY ASSESSMENTS DIVISION

Forecasts energy supply and demand for the state of California. Produces products that partner agencies, utilities, and other stakeholders use for a range of state energy planning processes. Develops projection scenarios for designing programs and shaping policies.

<https://www.energy.ca.gov/about/divisions-offices/assessments>

ENERGY DATA AND ANALYTICS OFFICE

Provides enterprise support for data and analytics projects across the agency in four key areas:

Data flows

- Building modern, cloud-based data pipelines
- Managing data layers in the data warehouse

Data access

- Building and managing our internal data mart
- Sharing data internally and externally

Data governance

- Establishing policies and procedures for data handling
- Maintaining our data inventory

Tools and training

- Providing access to tools for analyzing and visualizing data
- Managing cloud compute environments for large-scale data work

ENERGY RESEARCH AND DEVELOPMENT DIVISION

Advances technology innovation and research that accelerate the transition to a clean energy economy. Invests in:

- Entrepreneurial ecosystem
- Resilience and safety
- Grid decarbonization and decentralization
- Building decarbonization
- Transportation
- Industrial and agricultural innovation

<https://www.energy.ca.gov/about/divisions-and-offices/energy-research-and-development-division>

FUELS AND TRANSPORTATION DIVISION

Serves as California's lead agency for zero-emission vehicle infrastructure funding and deployment, including electric vehicle and hydrogen fuel cell vehicle infrastructure. Conducts modeling and analysis to inform infrastructure investment decisions.

<https://www.energy.ca.gov/about/divisions-and-offices/fuels-and-transportation-division>

INFORMATION TECHNOLOGY SERVICES BRANCH

Provides enterprise IT support by offering:

- Enterprise desktop support services
- Enterprise network infrastructure and security
- Project management
- Enterprise application development and software engineering
- Website service

<https://www.energy.ca.gov/contact/commissioners-offices-and-divisions-contacts>

RECRUITING AND OUTREACH UNIT

Offers career counseling to help candidates navigate the state hiring process, find job opportunities, and learn about advancement.

<https://www.energy.ca.gov/careers>

RENEWABLE ENERGY DIVISION

Leads the implementation of the state's Renewables Portfolio Standard, the power source disclosure program, and other programs that support the development and use of renewable energy in California.

<https://www.energy.ca.gov/about/divisions-and-offices/renewables-division>

SITING, TRANSMISSION, AND ENVIRONMENTAL PROTECTION DIVISION

Conducts environmental and engineering assessments for electric generation, storage, and transmission facilities; ensures permitted facilities comply with licensing conditions; and provides planning efforts that support the state's clean energy transition.
