Zero-Emission Vehicle (ZEV) and ZEV-Related Manufacturers in California

As of March 2025

Company Name	Company Website	Description	ZEVs ¹	ZEV Components ²	ZEV Infrastructure ³	ZEV Batteries ⁴	City	Zip	Year Incorporated
Altec Industries	https://www.altec.com/locations/dixon-operations/	Design and manufacture class 6-8 commercial BEVs. Final assembly plant in Dixon.	Yes	No	No	No	Dixon	95620	1929
American Lithium Energy Corporation	https://www.americanlithiumenergy.com/	Design and manufacture battery cells and battery packs for a variety of sectors, including transportation.	No	No	No	Yes	Carlsbad	92008	2009
Analog Devices Inc.	http://www.analog.com/	A Massachusetts based company that designs and manufacturers semiconductors, battery management systems, Inverter & E-Motor System Solutions.	No	Yes	No	No	San Jose	95134	1995
Applied Materials, Inc.	https://www.appliedmaterials.com	Design and manufacturer of a variety of specialty materials and products. Have production of lithium anodes for electric vehicle batteries in California.	No	No	No	Yes	Santa Clara	95054	1967
Archer Aviation Inc.	https://www.archer.com/	Design and manufacture vertically integrated all-electric small-passenger airplanes.	Yes	No	No	No	San Jose	95134	2018
Atlas Copco Compressors LLC	https://www.atlascopco.com/en-us	Distributor and manufacturer of H2 refueling station components. Are based in Sweden with manufacturing operations in Santa Maria, CA.	No	No	Yes	No	Santa Maria	93455	2007

¹ Refers to manufacturing of zero-emission vehicles. A “Yes” indicates that the company has that type of manufacturing operations in California.

² Refers to manufacturing of the primary components, parts, and/or systems used in zero-emission vehicles. A “Yes” indicates that the company has that type of manufacturing operations in California.

³ Refers to manufacturing of 1) the electric vehicle charger components, parts, and/or systems, and 2) hydrogen refueling station components, parts, and/or systems. A “Yes” indicates that the company has that type of manufacturing operations in California.

⁴ Refers to manufacturing of battery and battery components primarily for the purpose of integrating into a zero-emission vehicle and related systems. A “Yes” indicates that the company has that type of manufacturing operations in California.
