CEC-70 (Revised 2/26)

IN THE MATTER OF:
2026 CEC/EPRI Electrification Summit

NOTICE OF 2026 CEC/EPRI
Electrification Summit

Notice of 2026 CEC/EPRI Electrification Summit

June 10, 2026

8:00 a.m. – 5:30 p.m.

In-Person Only

Location at:

Main Auditorium, California Natural Resources Agency
715 P Street
Sacramento, CA 95814

See Attendance Instructions below.

The California Energy Commission (CEC) and the Electric Power Research Institute (EPRI), in conjunction with the Energy Transition Coordinating Council (ETCC), will host the 2026 CEC/EPRI Electrification Summit on June 10, 2026. The event will be in-person only, hosted at the California Natural Resources Agency (CNRA) Headquarters in Sacramento, California. Building on the momentum of the 2023 and 2025 Summits, the event will celebrate major initiatives and focus on continued progress towards California's nation-leading building decarbonization goals. A majority of commissioners from the CEC and California Public Utilities Commission (CPUC) as well as other leading state officials from CNRA and California Air Resources Board (CARB) may attend in person, but no votes will be taken.

The public can participate in the Electrification Summit, consistent with the attendance instructions below. The CEC aims to begin promptly at the start time posted and the end time is an estimate based on the proposed agenda. The event may end sooner or later than the posted end time.

Agenda

A detailed schedule with expected timing will be posted prior to the event on the CEC's [event page](https://www.energy.ca.gov/event/2026-06/2026-cec-epri-electrification-summit) at <https://www.energy.ca.gov/event/2026-06/2026-cec-epri-electrification-summit>.

The Electrification Summit will include presentations and discussions about topics such as:

- Programs and policies that support affordable decarbonization
- Emerging technology innovations that overcome key barriers and advance decarbonization
- Leadership examples in building electrification
- Grid modernization strategies to meet growing load and support electrification

Background

The 2026 CEC/EPRI Electrification Summit builds upon the previous summits held in March 2025 and October 2023. This event will convene government, industry, academia, non-profit organizations, and other interested parties to discuss strategies and impacts related to building electrification in California. As was the case for previous summits, this 2026 Electrification Summit is being produced in conjunction with EPRI, the Electric Power Research Institute. EPRI is a nonprofit founded in 1972 that works with utilities, governments, universities, and other stakeholders on energy sector research and development.

Building decarbonization and electrification are key pillars of California's efforts to achieve net carbon neutrality by 2045. The state has set ambitious targets of 6 million heat pump installations, and 7 million climate-ready and climate-friendly homes by 2035. Investments at the state, local, and federal levels in building decarbonization measures and technologies are pushing forward the state's progress towards these goals.

Attendance Instructions

This event will be held in-person only in the main auditorium at the California Natural Resources Agency building in Sacramento, and recordings for some panels will be available online after the event ends. Registration is free and is required for all attendees; the registration form can be found at this [Microsoft Forms link](https://forms.cloud.microsoft/g/fBp4uGPBm6) at <https://forms.cloud.microsoft/g/fBp4uGPBm6>.

Panel Questions.

Verbal and written questions from the audience may be accepted during the plenary sessions, as directed by the moderators. Panelists will do their best to respond to as many as possible.

Public Advisor. The CEC's Public Advisor assists the public with participation in CEC proceedings. To request assistance, interpreting services, or reasonable modifications and accommodations, call (916) 957-7910 or email publicadvisor@energy.ca.gov as soon as possible but at least five days in advance of the event. The CEC will work diligently to meet all requests based on availability.

Media Inquiries. Email mediaoffice@energy.ca.gov or call (916) 654-4989.

General Inquiries. Email CEC Staff at CECElectrificationSummit@energy.ca.gov.

Availability of Documents: Documents and presentations for this event will be available on the CEC's [event webpage](https://www.energy.ca.gov/event/2026-06/2026-cec-epri-electrification-summit) at <https://www.energy.ca.gov/event/2026-06/2026-cec-epri-electrification-summit>.

When new information is posted, an email will be sent to those subscribed to the Decarbonization Topics and Efficiency Topics, as well as other lists shared below. To receive these notices or

notices of other email subscription topics, visit [Subscriptions](https://www.energy.ca.gov/subscriptions), at <https://www.energy.ca.gov/subscriptions>.

Dated: April 6, 2026, at Sacramento, California.

J. Andrew McAllister, Ph.D.
Commissioner
