

BUILD

Building Initiative for Low-Emissions Development Program

BUILD Incentive Application System (BUILD Online) Instructions

Disclaimer: BUILD is administered by the California Energy Commission in collaboration with the California Public Utilities Commission. It is authorized by Senate Bill 1477 (2018, Stern) and funded by the four California gas corporations apportioned according to each gas corporation's percentage share of allocated Cap-and-Trade Program allowances. Reservations are approved on a first come, first served basis, and regional funding availability is based on the utilities' contribution to the program.

BUILD

Building Initiative for Low-Emissions Development Program

Introduction

The California Energy Commission (CEC) administers the [Building Initiative for Low-Emissions Development \(BUILD\)](#) program providing incentives and technical assistance to support the adoption of advanced building design and near-zero-emission technologies in new, all-electric, low-income homes. The [BUILD Incentive Application System](#) (BUILD Online) accepts incentive reservation applications and eligible expense information through the CEC's secure online application and claims submission system.

These BUILD Online instructions provide information on:

- Registering for a BUILD account,
- Completing and submitting an initial incentive application for Step 1: Design or Step 2: Construction reservation,
- Transitioning an application through the three steps of the program (including Step 3: Completion),
- Making modifications to a submitted application, and
- Submitting eligible expense information and incentive claims.

The instructions are a helpful tool when preparing for and completing a BUILD incentive application or submitting an expense claim. For complete details on program eligibility, incentives, required downloadable documentation requirements, and the terms and conditions of program participation, please consult the [BUILD Program Guidelines](#) and the [BUILD Program webpage](#).

All potential applicants are encouraged to request technical assistance for project design and for incentive application submittal support. To request technical assistance please complete a [technical assistance application](#) or contact the BUILD Technical Assistance Provider (TAP), the Association for Energy Affordability, at BUILD@aeacleanenergy.org. For general program questions or other issues, please contact BUILD staff at BUILD@energy.ca.gov.

BUILD

Building Initiative for Low-Emissions Development Program

1. BUILD Applicant Online Registration

Applying for a BUILD incentive starts with registering online for a BUILD account. This section provides online registration and login instructions for accessing the BUILD Online form.

1.1 Account Registration

To begin, register for a BUILD Account at <https://buildapp.energy.ca.gov/> and click the Register link in the upper right corner of the screen.

The Register button will open the account creation page. Fill in each section of the page with the proper user information. Once the registration information is complete, select Register at the bottom of the page.

BUILD

Building Initiative for Low-Emissions Development Program

Register.

[Register](#)

Once registration is complete and submitted, a verification email will be sent to the registered email. Follow the instructions in the email to verify the account.

One more step...

Please check your email for further instructions on how to complete your account setup.

Having trouble? [Contact us](#)

[Continue to homepage](#)

BUILD

Building Initiative for Low-Emissions Development Program

Once the email verification is complete, click the “here” link that is highlighted below.

Log into BUILD Online with the newly verified credentials. BUILD Online requires multi-factor authentication for log in through the registered email. When prompted after logging in, click the Submit button, which will send a verification code to the registered email address.

Insert the verification code into the box highlighted below and click the Submit button to login.

BUILD

Building Initiative for Low-Emissions Development Program

1.2 Creating a Company

To submit a BUILD incentive application, an applicant must join an existing company that has previously applied to the BUILD Program or create a company. This section will cover creating a new company in BUILD Online. This is started by clicking the Projects icon from the top header once logged into the system.

The Projects tab will display a list of existing companies, seen below, in which an applicant may request to Join as described in the following section. If the company you wish to apply for is not already listed, this page also allows for the creation of a new company profile. To create a company, click the [HERE](#) button, on the Company List page. This will bring the user to the company information page. Fill out each prompt on the page with the corresponding information and click the Next button when finished.

BUILD

Building Initiative for Low-Emissions Development Program

Company Information (All fields are required)

Qualification

Please read the following requirement first

- Response must be "Yes" to question #1
- Years of Experience in Construction must be greater than or equal to 5

1. To qualify for a BUILD incentive, did the eligible applicant (company, owner, tribal, NGO) develop and received a COO for at least one deed-restricted multi or single family residential property in California?

2. Years of Experience in Construction

3a. Project Address of Qualifying Past Project.

Type in your project address of qualifying past project

0 / 1500

3b. Funding Sources of Qualifying Past Project.

Type in your funding sources of qualifying past project

0 / 1500

3c. Description of Qualifying Past Project.

Type in your description of qualifying past project

0 / 1500

4. Date of Final Certificate of Occupancy

5. Is this the first time that your company/firm has developed and rebuilt an all-electric residential building in California?

If the company meets the initial BUILD Program Guidelines requirements for an eligible applicant, the profile page will then appear.

NOTE: Question #5 decides the company's eligibility for the New Adopter Design Award during the Step 1: Design reservation application.

1.4 Changing Applicant/Company Information

BUILD

Building Initiative for Low-Emissions Development Program

To change information of an existing applicant/company, such as name, legal structure, business type, address, etc., click the Manage Eligible Applicant button from the Eligible Applicant Dashboard.

The screenshot shows the 'Eligible Applicant Dashboard' for 'LAFHBUILDS'. The dashboard includes a header with the California Energy Commission logo and navigation links: Home, About, Projects, and Contact Us. A red box highlights the 'Manage Eligible Applicant' button in the top right corner. Below the header, the dashboard is divided into two main sections. The left section displays the applicant's name 'LAFHBUILDS', address '7843 Lankershim Blvd, North Hollywood, CA 91605', and contact information 'adomingu@energy.ca.gov'. It also shows funding details: 'Requested \$235,708' and 'Reserved \$221,788'. A red button labeled 'Leave Eligible Applicant' is at the bottom left. The right section features a table with project status: 'In Progress' (0), 'Submitted' (0), and 'Completed' (1). It also includes buttons for 'View Projects' and 'View Claims'.

Click the Applicant Info button and change and/or update any of the fields in the Profile. To save changes click the Update button.

The screenshot shows the 'Eligible Applicant Dashboard' with the 'Profile' form open. The form is divided into two columns. The left column contains a sidebar with 'Applicant Info', 'Sub Company', and 'User Access'. The main form area has fields for: 1. Eligible Applicant Name (Test Company), 2. Legal Structure (Corporation), 3. Business Type (Owner), 4. Organization Type (Non-Profit), 5. Address (714 P Street), 6. State (California), 7. County (Sacramento), 8. City (Sacramento), and 9. Zip Code (91605). A red box highlights the 'Update' button at the bottom left of the form.

BUILD

Building Initiative for Low-Emissions Development Program

1.4.1 Changing User Access Role

To change the user access role of an existing applicant, for instance, change the role of an applicant staff to applicant admin, applicant needs to leave the current company first by selecting "Leave Eligible Applicant" from the Eligible Applicant Dashboard.

Eligible Applicant Dashboard [Manage Eligible Applicant](#)

LAFHBUILDS
7843 Lankershim Blvd, North Hollywood, CA 91605

Eligible Applicant Contact(s): adomingu@energy.ca.gov

Funding

	Requested	Reserved
	\$235,708	\$221,788

[Leave Eligible Applicant](#)

Project Progress

Project	Design	Construction	Completion
In Progress	0	0	0
Submitted	0	1	0
Completed	1	0	0

[View Projects](#) [View Claims](#)

A warning box asking if you are sure to leave will appear, after clicking OK, the system will redirect to the Company List, where applicants can look for a company and select a role within the company (refer to 1.3. Joining a Company).

Note: Please be aware that the request will go to the first admin in the company who will need to accept/reject additional users.

2. BUILD Online Application Submission

The BUILD Online reservation application form is organized in five sections:

1. Initial Screening (Project Information and Eligibility)
2. Supplemental Narrative
3. Calculator Upload
4. Supporting Documents
5. Summary

[Initial Screening](#) [Supplemental Narrative](#) [Calculator Upload](#) [Supporting Documents](#) [Summary](#)

BUILD

Building Initiative for Low-Emissions Development Program

2.1 Overview of the BUILD Reservation Application

Applicants can apply for an incentive reservation and a new adopter design award, if applicable, using the BUILD Online system. Depending on the project stage, and the information provided in the application, the BUILD Online system will introduce new required data fields for each type of incentive reservation best matching the project information.

Pursuant to the BUILD Program Guidelines, the incentive application types include:

1. **Step 1 Design:** A design reservation is optional, used for projects still in a planning or design stage and without a building permit.
 - a. **New Adopter Design Award:** At the time of a design application, if an applicant has never received an all-electric residential building permit in California; and is developing its first all-electric low-income multifamily residential building of ten (10) units or more; the BUILD Program may provide a one-time reimbursement for paid invoices pertaining to architectural, engineering, energy consultation, or other eligible design-build services. The new adopter design award can reimburse up to \$100,000 of eligible design expenses.
2. **Step 2 Construction:** Projects with an approved building permit, but not a temporary or final certificate of occupancy, must apply for a construction reservation.
3. **Step 3 Completion:** Approved Step 2: Construction projects that have received a temporary or permanent certificate of occupancy transition to Step 3: Completion to apply for final incentive payments and closeout.

BUILD

Building Initiative for Low-Emissions Development Program

2.2 BUILD Incentive Application

Once logged into BUILD Online, click the Projects icon at the top of the page to create a new project application and review existing applications.

The landing page will show the company or eligible applicant you are associated with, and the incentives requested and approved for the company. On the right side of the page, view a summary of project statuses for the company. To start a new application, click the Project Dashboard button.

From here, click on the +New Project button on the right side of the webpage. The Project Dashboard also allows users to view existing applications previously submitted or in progress.

To review existing or in progress applications, click the View button.

2.2.1 Initial Screening

BUILD

Building Initiative for Low-Emissions Development Program

On the first tab of the application titled “Initial Screening”, provide the requested details pertaining to the project information, eligibility, technical assistance received, and the project stage which will identify if the application is in Step 1: Design or Step 2: Construction.

Project Information: Provide project details including project name, climate zone, and address. For assistance with identifying the climate zone, visit the [California Climate Zones webpage](https://www.energy.ca.gov/programs-and-topics/programs/building-energy-efficiency-standards/climate-zone-tool-maps-and) at <https://www.energy.ca.gov/programs-and-topics/programs/building-energy-efficiency-standards/climate-zone-tool-maps-and>.

The screenshot shows the 'Project Information' section of the BUILD application. It includes a header with the California Energy Commission logo and navigation links: Home, About, Projects, and Contact Us. The form fields are: Project Name, Climate Zone (1-16), Project Address, Project Address (line 2), County (dropdown), City, and Zip Code.

Eligibility Questionnaire: Information selected in this section will confirm the project’s eligibility for BUILD incentives. Eligibility requirements include the project’s fuel type, location in a participating gas territory, building type, and low-income limits.

All-Electric: To be eligible for BUILD incentives, the project must be all-electric. Select “Yes” from the dropdown menu to confirm the anticipated or under construction project is all-electric and does not have any gas distribution lines connected.

The screenshot shows question Q1: "Project and all building associated are all-electric without gas distribution line?". The answer is "Yes" in a dropdown menu, which is highlighted with a red box.

Gas Utility Territory: Pursuant to BUILD Program Guidelines, the project must be in one of four gas utility service areas: Southern California Gas Company, Pacific Gas and Electric, San Diego Gas & Electric, or Southwest Gas Corporation.

Choose one of the four gas utilities from the dropdown menu if the project resides in their service

BUILD

Building Initiative for Low-Emissions Development Program

territory. If the project is not located in one of the four gas utility service territories, the project is ineligible for the BUILD Program.

Q2. Select gas utility territory which project is located.

Southern California Gas Company
Pacific Gas and Electric Company
San Diego Gas and Electric Company
Southwest Gas Corporation
My project is not in one of these territories (Your project does not qualify)

Building Eligibility: Select one of the options from the dropdown menu. If the building type is not listed, the project is ineligible.

Q3. Select new building eligibility of the project.

New building: all-electric being planned or constructed
Rehabilitation: 50% or more of existing building weight-bearing walls are removed
Repurposed: existing building repurposed for housing (original use not housing)
Project is none of the above (Project does not qualify)

Low-Income Eligibility: To qualify for a BUILD incentive, the project must meet requirements for low-income residential housing income limits. Select one of the following options depicted in the figure below that represents the project's building type (single- family or multifamily) and low-income eligibility.

Q4. Select low-income eligibility of the project.

☐ Multifamily: located in disadvantaged community and consistent with affordable financing source requirements
☐ Multifamily: located in low-income community (at least 50% households income less than 60% AMI) and consistent with affordable financing source requirements
☐ Multifamily: at least 80% household income in building at or below 60% AMI
☐ Single family: low-income subject to resale restriction
☐ Single family: low-income subject to equity-sharing agreement

If the project's eligibility is based on its location in a disadvantaged community, provide the CalEnviroScreen number (1-100). For assistance with identifying the CalEnviroScreen number, please see the [California Communities Environmental Health Screening Tool](https://oehha.ca.gov/calenviroscreen/report/calenviroscreen-40) at <https://oehha.ca.gov/calenviroscreen/report/calenviroscreen-40>. For more information, and to ensure eligibility based on anticipated building type and low-income eligibility requirements, please refer to the BUILD Program Guidelines, Chapter 2: Eligibility.

Technical Assistance Questionnaire: If the applicant is approved for technical assistance on

BUILD

Building Initiative for Low-Emissions Development Program

this project and assigned a BUILD Case ID from the TAP, select "Yes" in the dropdown box. A new field will populate to enter the unique BUILD Case ID. The project will be identified throughout its BUILD Program participation by this BUILD Case ID.

The BUILD Case ID is a 7-digit alphanumeric identification. Applicants who submit their reservation application without a BUILD Case ID will receive in their submission confirmation email a 7-digit identification number starting with C (denoting CEC initiation). The example below is a Case ID that began with technical assistance and therefore starts with T (denoting technical assistance initiation).

Technical Assistance Questionnaire

Q1. Did you receive technical assistance from the BUILD Program for this project?

Yes

Please provide technical assistance case number. (Example: T123456)

Project Stage Additional Questions: Use the dropdown menu to indicate if the project has received an approved building permit. If the project has not received a building permit yet, the project is applying for a Step 1: Design reservation, and possibly the new adopter design award. If the project has received a building permit, the project is applying for a Step 2: Construction reservation.

Project Stage / Additional Questions

Q1. Do you have an approved building permit?

No

Yes

BUILD

Building Initiative for Low-Emissions Development Program

Use the dropdown menu to indicate if the project is in a tribal community.

Q2. Is this project located in a tribal community?

No

Yes

A red box highlights the dropdown arrow on the right side of the question.

Click the Update Project button at the bottom of the screen to save progress. To move on to next section, applicant must select the tab they want to complete as the system does not forward to next section automatically.

Project Stage / Additional Questions

Q1. Do you have an approved building permit?

No

Q2. Is this project located in a tribal community?

No

Cancel

Update Project

A red box highlights the 'Update Project' button at the bottom right.

BUILD

Building Initiative for Low-Emissions Development Program

2.2.2 Supplemental Narrative

The Supplemental Narrative has four tabs outlined below to provide relevant project information.

Schedule: Under the Supplemental Narrative header, use the calendar popup menu to select the appropriate date for each of the mandatory fields in red, and the optional fields in black.

Cost estimates for the predevelopment and construction phase of the project are typed into the boxes shown below as well as the total estimated project cost. Do not enter a dollar sign or commas; these will automatically populate when a number is entered.

To proceed to the next section, or save application progress, click the Update button at the bottom of the page:

BUILD

Building Initiative for Low-Emissions Development Program

Financing: Select the second tab Financing under the Supplemental Narrative header and use the “+Add Project Financing Record” button to add a new financing record.

The screenshot shows the BUILD Program interface. At the top, there are five tabs: Initial Screening, Supplemental Narrative (selected), Calculator Upload, Supporting Documents, and Summary. Under Supplemental Narrative, there are four sub-tabs: Schedule, Financing (selected), Affordable Income Restrictions, and Modeled Resident Utility Cost Savings. Below these, there is a section titled 'Project Financing'. At the bottom right of this section, there is a blue button labeled '+ Add Project Financing Record' which is highlighted with a red rectangular box. Below the button, it says 'No Project Financing Information'.

When applicable, BUILD Program Guidelines require a project’s affordable income limits be consistent with the requirements of the affordable multifamily financing source. Please select one of the available options from the dropdown menu. For low-income single-family residences, select Not Applicable.

This screenshot shows the same interface as the previous one, but with the dropdown menu for 'Affordable Multifamily Housing Financing Source' open. The dropdown menu is located below the 'Project Financing' section. It has a title 'Affordable Multifamily Housing Financing Source' in red. The menu lists several options: CTCAC (California Tax Credit Allocation Committee) - 4%, CTCAC (California Tax Credit Allocation Committee) - 9%, AHSC (Affordable Housing and Sustainable Communities), CDLAC (California Debt Limit Allocation Committee), AHP (Affordable Housing Program), HCD (California Department of Housing and Community Development), CalHFA (California Housing Finance Agenda), USDA (United States Department of Agriculture), HUD (United States Department of Housing and Urban Development), Other (Ex. Local funding sources, fee waivers, developer fee, donation, etc.), and Not Applicable. A red rectangular box highlights the dropdown arrow on the right side of the menu. At the bottom left of the menu, there are 'Save' and 'Cancel' buttons.

The BUILD Program Guidelines require funding details, including the amount requested or awarded and the anticipated date for applying to a financing source.

Under the Financing tab, please type in the amount requested or awarded from the selected financing source. Do not enter a dollar sign or commas; these will automatically populate when a number is typed in. Then, click on the calendar icon to select the date of the anticipated financing application date or the applied application date for affordable multifamily housing financing.

BUILD

Building Initiative for Low-Emissions Development Program

Affordable Income Restrictions: Select the third tab Affordable Income Restrictions under the Supplemental Narrative header. Pursuant to Program Guidelines, the length of low-income multifamily residential deed restriction receiving a BUILD incentive cannot be less than 15 years. If the project is a multifamily development, type the length of term of the income restrictions (years) into the textbox. After entering the term length in the text box, click the Update button to save progress.

The screenshot shows the 'Supplemental Narrative' tab selected. Under the 'Affordable Income Restrictions' sub-tab, the 'Length of Term of The Income Restrictions (>=15 Years)' field contains the value '15'. The 'Update' button at the bottom left is highlighted with a red box.

If the project is a single-family development: select the resale restriction, equity sharing agreement, and the eligibility criteria for potential homebuyers. Once this information and any other optional information is entered, click the Update button to save the progress.

The screenshot shows the 'Supplemental Narrative' tab selected. Under the 'Affordable Income Restrictions' sub-tab, the form includes the following fields: 'Length of Term of The Income Restrictions (>=15 Years)', 'Resale Restriction', 'Equity Sharing Agreement', 'Public Entity providing housing to lower income households - _____ (fill in Public Entity name)', 'Nonprofit 501(c)(3) Entity providing housing to lower income households _____ (fill in Nonprofit name)', and 'Eligibility criteria for potential homebuyers'. The 'Update' button at the bottom left is highlighted with a red box.

BUILD

Building Initiative for Low-Emissions Development Program

Modeled Resident Utility Cost Savings: Select the fourth tab Modeled Utility Cost Savings under the Supplemental Narrative header and use the dropdown to indicate if the project's future residents will pay their individual electricity bills.

Initial Screening Supplemental Narrative Calculator Upload Supporting Documents Summary

Schedule Financing Affordable Income Restrictions Modeled Resident Utility Cost Savings

Project's Modeled Resident Utility Cost Savings

The projects' residents will pay their individual electricity bills

Yes, residents will pay their respective/individual electricity bills, please describe how will PV benefit will be assigned

No, please describe the type of housing provided that exempts the project from meeting the modeled resident utility cost savings requirement

Yes, residents will pay their respective/individual electricity bills, please describe how will PV benefit will be assigned

After selecting an option from the dropdown, use the textbox to describe either how the solar photovoltaic will be assigned to the residents, or how the project will otherwise meet the modeled utility cost savings requirement as outlined in the guidelines. When completed, click the Update button to save progress.

NOTE: If there are any technical issues while filling out the form or uploading documents, please contact BUILD@energy.ca.gov for assistance.

When ready to submit the application, use the dropdown menu under the Project Contact Information to select the appropriate company for future project communications. Finally, click the Submit Project button to complete application submission process.

Project Contact Information

In order to proceed to the Submit Project page, **all selected calculator models** in Calculator Upload must be in completed status, the required supporting documents must be uploaded, and the Mailing Address Information must be completed.

Submit Project

Submission Confirmation Email: If successful, the designated project contact will receive a confirmation email from the BUILD@energy.ca.gov email address, which includes a BUILD Case ID, date and time of the submission, and the estimated incentive amount requested. You can view the status of the application in the BUILD Online Project Dashboard.

BUILD

Building Initiative for Low-Emissions Development Program

Please complete applications requiring corrections within 30 calendar days. The BUILD Online System will change the status of applications not corrected within 30 days to incomplete. Applicants with incomplete applications are given an additional ten (10) business days to complete the corrections. Once the 10 business days have passed the BUILD Online System cancels the application.

NOTE: Once submitted, the application will be in queue, in the order received, for review, approval, corrections, or denial. The submitted application will not be available for modification until it has been reviewed, and the status changed to corrections by BUILD staff. During the application review process, BUILD staff may request additional documentation as part of the review process.

2.2.6 Incentive Details

BUILD incentives are based on a project's modeled anticipated greenhouse gas (GHG) emission reduction as compared to the mixed-fuel prescriptive standards in the 2019 Energy Code or the 2022 Energy Code. In addition, projects receiving BUILD incentives cannot result in higher utility bills for building residents than they would experience from a similar mixed-fuel home.

BUILD

Building Initiative for Low-Emissions Development Program

2.3 Application Updates and Notifications

Project Updates: If project information needs updating before an application is scheduled to transition to the next BUILD application step, please send an email to BUILD@energy.ca.gov to request support and instructions.

Project Extensions: An approved Step 1 Design reservation is valid for 18 months. If submitted in accordance with the procedures in Chapter 6, Section P, a one-time extension of a design reservation for a period no greater than six (6) months will be approved upon the applicant's demonstration that:

- a) Any barriers or delays will be resolved within the extension period and the updated project timetable is viable and consistent with the terms within these guidelines.
- b) Applicant has applied for low-income housing financing and is awaiting approval, if applicable.
- c) A statement that applicant expects to learn of whether their low-income housing financing is approved within the extended period, if applicable.

An approved Step 2 construction reservation is valid for 36 months. If submitted in accordance with the procedures in Chapter 6, Section P.1 a onetime 12 month extension will be granted if the applicant demonstrates that:

- a) The extension is necessary due to unforeseen circumstances beyond the applicant's control that are not the fault of, or caused by, the applicant, and
- b) The unforeseen circumstances identified have been remedied, and the project timetable is now consistent with the terms within these guidelines and on track to advance to step 3 within the extension period.

Any extension requests beyond 12 months must be considered by the CEC, as discussed in Chapter 6, Section P.2.

Withdrawal or Cancellation: To cancel or withdrawal an application, please notify BUILD staff by sending an email to BUILD@energy.ca.gov. Once received and processed, applicant will receive a project status notification confirming the withdrawal or cancellation of the application.

BUILD Online functionality updates periodically. Please visit the BUILD Webpage to sign-up for the program subscription list where applicants will be notified for major changes to the program guidelines, the CPT forms, or BUILD Online functionality.

BUILD

Building Initiative for Low-Emissions Development Program

2.4 Project Step Transitions

Once an application is approved, it is eligible to proceed to the next project step of the BUILD Program. The eligibility and documentation requirements is listed in the application checklist document for each step.

Congratulations!

on reaching the next milestone of the project's incentive reservation

To access the Step 2 Construction application, please upload and submit the project's building permit(s).

In the application, update project information (greyed fields are locked and not editable) and upload required documents. For a list of documents required, please reference the [Step 2 Construction Application Checklist](#).

Instructions:

1. Click on the Select button below.

For the complete application checklist documents, please visit the [BUILD Incentives Webpage](#) and click the "Apply for an Incentive" tab to expand the accordion.

NOTE: The Step 3: Completion application is only available to applications approved for Construction reservations.

To transition the application to the next step. navigate to the Eligible Applicant Dashboard by clicking on the Projects icon at the top of the BUILD Online webpage.

					View Claim

A payment claim package submitted in BUILD Online will be in queue, in the order received, for review, approval, corrections, or denial. Applicant may not modify the submitted payment claim package unless BUILD staff places the claim payment package in corrections status. BUILD staff may request additional documentation as part of the review process.

Claim payment packages requiring corrections must be submitted within 30 calendar days. BUILD Online changes the status of claim requests not corrected and submitted within 30 days to incomplete. Applicants with incomplete claim requests are given an additional ten (10) business days to complete the corrections. Once the 10 business days have passed the BUILD Online System automatically cancels the incomplete and unsubmitted claim. The applicant can reinitiate a claim after an automatic cancellation.

Please allow for up to 30 business days (excluding State holidays) for any claim request to be processed. Please also allow an additional 14 business days once a claim has been approved for the issuance of the paper check from the California State Controller's Office. For any questions regarding the status of a claim request, or to report that the paper check has been lost/stolen, please contact BUILD staff at BUILD@energy.ca.gov and include the Case ID and

BUILD

Building Initiative for Low-Emissions Development Program

Claim Reference ID in the subject line.

Only one claim request can be submitted per qualifying project at any given time. To cancel a claim request or request assistance regarding the claim request, please contact BUILD staff at BUILD@energy.ca.gov.

BUILD

Building Initiative for Low-Emissions Development Program

3.1 Overview of the BUILD Payment Claim Request

The BUILD Online payment claim process follows the application reservation stages; it has a Step 1: New Adopter Design Award, Step 2: Construction progress payment, and Step 3: Project Completion final or lump sum payment.

Step 1: New Adopter Design Award

Complete and submit the payment claim form to receive the New Adopter Design Award payment, if applicable.

Step 2: Construction Progress Payments

Upon approval of the construction reservation, applicant may submit one payment claim to receive up to 25 percent of the calculated base GHG incentive value or actual eligible costs, whichever is less. Upon demonstration (geotagged photograph) that the project foundation has been constructed, applicant may submit one payment claim for no more than 50 percent of the calculated base incentive value or actual eligible costs, whichever is less. The total of these two payments cannot exceed 75 percent of the calculated base GHG incentive value, or actual eligible costs, whichever is less.

Step 3: Project Completion Final or Lump Sum Payment

Complete and submit the payment claim form to receive the remaining portion of base GHG incentive amount and any remaining incentive funding will be released to reimburse for actual eligible costs.

3.2 Payment Claims

Pursuant to the BUILD Program Guidelines, an applicant may submit no more than four payment claims on any project under the program including the new adopter design award payment, if applicable. No additional claims, or amendments to claims, will be accepted after the final payment claim for the project completion package is approved. Once the final incentive is paid, changes to expand or improve the expected performance of a building are not eligible for BUILD funding.

3.3 Assignment of Incentives

Applicants may assign their incentive payment to another party, one assignment is allowed for each payment claim. The applicant must submit a payee data record (STD-204) for the assigned party. Please note the applicant will still be reported as the recipient of the incentive payments for tax purposes.

BUILD

Building Initiative for Low-Emissions Development Program

3.4 Supporting Documentation

All applicants with an approved application requesting a BUILD incentive payment must submit a claim payment package with the following supporting documents:

Step 1: New Adopter Design Award

1. Eligible invoices and proof of payment
2. [Step 1: New Adopter Payment Claim Worksheet](#)
3. [Payee Data Record \(STD 204\)](#)
 - a. One for the applicant
 - b. One for the assigned party if payment will be made to another entity.

Step 2: Construction

1. Eligible invoices and proof of payment
2. [Step 2: Construction Payment Claim Worksheet](#)
3. Geotagged photo of the project's completed foundation pour if the claim request is 50% the base GHG incentives
4. [Payee Data Record \(STD 204\)](#)
 - a. One for the applicant
 - b. One for the assigned party if payment will be made to another entity.

Step 3: Project Completion

1. Eligible invoices and proof of payment
2. [Step 3: Lump Sum Payment Claim Worksheet](#)-the system will use Worksheet B -Kicker Incentives and Worksheet C- PV system to calculate the amount to be paid. If the project does not have kicker incentives and/or PV system, enter \$0.
3. Worksheet A – Eligible Costs List
 - a. Worksheet B – Kicker Incentives
 - b. Worksheet C – PV System
4. [Payee Data Record \(STD 204\)](#)
 - a. One for the applicant
 - b. One for the assigned party if payment will be made to another entity.

NOTE: Items 4-8: These items need not be uploaded to create a claim if they were already submitted during Step 3: Project Completion application.

5. Proof of Equipment Procurement for kickers and PV installed on the project.
6. PTO (Permission to operate for solar systems).
7. Certificate of Occupancy (or temporary)
8. Recorded Regulatory Agreement/Deed Restriction; Resale restriction or equity sharing agreement
9. Energy Efficiency Verifications (CF-2R, CF-3R).

Any question on what must be compiled, prior to logging into BUILD online system to create a payment claim request, please contact BUILD staff at BUILD@energy.ca.gov.

BUILD

Building Initiative for Low-Emissions Development Program

3.5 Payment Claim Request for New Adopter Award or Step 2: Construction

Please have all supporting documentation for the payment claim request prior to logging in BUILD Online System. All eligible costs to be reimbursed, please combine all paid invoices into a single searchable PDF .For specific instructions on how to make a PDF file searchable using Adobe Acrobat, please visit the webpage <https://www.adobe.com/acrobat/hub/make-a-pdf-searchable.html>.

To start a payment claim request, the Company Admin will click the Projects icon at the top of the page, then click the "Manage Eligible Applicant" button.

Next click the Manage Eligible Applicant button.

On the Eligible Applicant Dashboard, under the Payee Data Record section, click the "Choose a

BUILD

Building Initiative for Low-Emissions Development Program

file” button, select the Payee Data Record (STD 204) from applicant’s device, then click the Upload button to complete the action. If applicant does not have a completed Payee Data Record form (STD 204), the form is available at <https://www.energy.ca.gov/media/7030>. Once the form has been uploaded, click the Projects icon at the top of the page.

Payee Data Record (STD 204)

Please upload a completed STD 204 for the BUILD applicant only.

Building Initiative for Low-Emissions Development Program

3.5.2 Progress Payment

Complete the Progress Payment section to identify who will receive the payment.

Select No or Yes to the question: Is payment assigned to another party?

Progress Payment

Is payment assigned to another party? ←

No

Yes

Selecting No: The paper check will be issued to the applicant. If the applicant is not assigning the payment, select No, then and click the Submit button.

NOTE: If the Tax ID Number (TIN) of the entity that will receive the check is different from the applicant's TIN, the payment claim is an assignment.

Selecting Yes: The paper check will be issued to the assigned party. The applicant will provide additional details below. Applicants may assign their incentive payment to another party on each specific payment and will still be reported as the recipients of the incentive payments for tax purposes. One assignment is allowed for each payment, and with each new assignee, the applicant must file a new appropriate payee data record (STD-204).

Is payment assigned to another party?

Payment Assignment Request:

I the applicant or authorized representative of the applicant as specified on the Incentive Reservation Application Form, hereby assign the right to receive payment for the above noted award under the BUILD Program to the following individual or entity and request that payment be forwarded to this individual or entity, addressed below. A Payee Data Record (STD 204) must be submitted for the person/entity receiving the payment, if it is not already on record with the Energy Commission.

The following information must match with the uploaded Payee Data Record (STD-204).

Assigned Party Name

Address

City **State** **Zip Code**

Payee Data Record (STD-204) (allowed document type: pdf)

BUILD

Building Initiative for Low-Emissions Development Program

When assigning payment to another party, the information in the payment assignment section must match the information on the assigned party's Payee Data Record (STD 204).

NOTE: The Payee Data Record (STD 204) **must** be uploaded prior to clicking Submit Claim. A Payee Data Record Form (STD 204) is available at <https://www.energy.ca.gov/media/7030>.

Click the Submit button, once the Progress Payment section is completed and is accurate.

The screenshot shows a web interface with a light blue header and a white main area. Below the header, there is a section titled 'Claim Documents' with a light blue background. At the bottom of this section, there are two buttons: a blue 'Submit' button and a white 'Save' button. The 'Submit' button is highlighted with a red rectangular box.

On the attestation page, select each box and click the "I Agree, Continue" button to continue with the payment claim request.

The screenshot shows the BUILD attestation page. At the top, there is a navigation bar with links for Home, About, Projects, and Contact Us. Below the navigation bar, there is a list of checkboxes for the user to agree to. The checkboxes are:
- ☐ I understand that eligible applicants may choose to accept a lower incentive amount than calculated by the CEC under the program, and that I must indicate this at the time of the construction reservation.
- ☐ I understand that applications are accepted on a first-come, first-served basis, and that construction reservations will be approved in accordance with funding amounts attributed to each specific gas utility territory while funds are available.
- ☐ The information provided is true and correct and that the proposed project meets the requirements of the BUILD Guidelines and to the accuracy and completeness of information submitted.
- ☐ I am responsible for any omissions or errors that may result in delay or denial of the payment claim.
- ☐ Only one payment assignee to a third party is allowed for each progress payment and must be identified with each payment claim form submittal; otherwise the progress payments are non-transferrable.
- ☐ The Applicant is responsible for any federal, state, and local taxes associated with the receipt of progress payments. Applicants who assign their progress payments to third parties will remain responsible for ensuring compliance with any other legal requirements associated with the reservation payment, including any tax consequences, despite the payment's assignment.
Below the checkboxes, there is a section titled 'Please have the following information/documents ready before you begin the claim filing process' with a bullet point:
• Incurred Cost
At the bottom of the page, there is a red box containing the text 'Do you wish to continue filing a claim for SeymourTEST' and two buttons: a red 'No' button and a blue 'I Agree, Continue' button. The 'I Agree, Continue' button is highlighted with a red rectangular box.

A new page will appear with a message at the top, confirming that the claim has been submitted.

Office. For any questions regarding the status of a claim request, or to report that the paper check has been lost/stolen, please contact BUILD staff at BUILD@energy.ca.gov and include the Case ID and Claim Reference ID in the subject line.

Only one claim request can be submitted per Qualifying Project at any given time. To cancel a claim request or request assistance regarding the claim request, please contact BUILD staff at BUILD@energy.ca.gov.

NOTE: In the event the check is lost/stolen, please allow up to 14 business days (excluding State excludes) for the re-issuance of a replacement paper check.

BUILD

Building Initiative for Low-Emissions Development Program

3.6 Step 3 Project Completion

Please have all supporting documentation for the payment claim request prior to logging in BUILD Online System. Eligible invoices and proof of payment must be in a PDF searchable file, <https://www.adobe.com/acrobat/hub/make-a-pdf-searchable.html>.

To start a payment claim request, the Company Admin will click the Projects icon at the top of the page, then click the "Manage Eligible Applicant" button.

Click the Manage Eligible Applicant button.

On the Eligible Applicant Dashboard, under the Payee Data Record section, click the "Choose a file" button, select the Payee Data Record (STD 204) from applicant's device, then click on the Upload button. If applicant does not have a completed Payee Data Record form (STD 204), the form is available at <https://www.energy.ca.gov/media/7030>. Once the form has been uploaded, click the Projects icon at the top of the page.

BUILD

Building Initiative for Low-Emissions Development Program

Payee Data Record (STD 204)

Please upload a completed STD 204 for the BUILD applicant only.

BUILD

Building Initiative for Low-Emissions Development Program

3.6.1 Required Documents

Click the "Click here to select worksheet" button and select the payment worksheet from the applicant's device. Click the Calculate button after uploading the completed worksheet.

Incentive Details

Upload Incentive Worksheet

To facilitate the calculation of your available reimbursement amount for the project, kindly upload your Project Completion Worksheet.
If you do not possess the worksheet, please contact BUILD staff at buildunit@energy.ca.gov.

Click here to select worksheet

Calculate

The system will populate the estimated PV Incentive and Kicker incentive from the worksheet itself. The remaining reimbursable incentive (GHG base, Building Efficiency) will be calculated automatically after the applicable worksheets have been uploaded.

If applicant needs to replace the uploaded worksheet, click the "Click here to select worksheet" button to select and upload the new worksheet. Click the Calculate button to re-calculate the amounts.

Incentive Details

Upload Incentive Worksheet

To facilitate the calculation of your available reimbursement amount for the project, kindly upload your Project Completion Worksheet.
If you do not possess the worksheet, please contact BUILD staff at buildunit@energy.ca.gov.

Click here to select worksheet

Calculate

Maximum reimbursable incentive amount for PV and Kicker has been updated.

	GHG Base Incentive	Building Efficiency Incentive	PV Incentive	Kicker Incentive	Total BUILD Incentive
Awarded Funding Amount	\$24,255.00	\$11,160.00	\$3,484.00	\$4,400.00	\$43,299.00
Maximum Reimbursable Amount	\$6,063.75	\$11,160.00	\$3,484.00	\$4,000.00	\$43,299.00
Reimbursable Amount Requested	\$6,063.75	\$11,160.00	\$3,484.00	\$4,000.00	\$24,707.75

BUILD

Building Initiative for Low-Emissions Development Program

The dollar amounts requested must be equal to or less than the Maximum Reimbursable Amount for each incentive type.

Upload the supporting documents for the claim request by clicking Select for each item to upload the documents below:

Incurred Cost(s):

1. Invoices
2. Proof of payment

NOTE: For solar equipment and kicker incentives, the proof of equipment purchase must specify the price charged for the installation of equipment and should include:

- a. Name, address, and contractor's license number of the company performing the installation.
- b. Site address for the project.
- c. Description of the work performed.
- d. Quantity, make, and specific model of the equipment installed. If an incomplete model number is listed, the CEC will assume the lowest efficiency model number will be installed.

Submit proof of purchase and installation of the PV system if used to comply with the 5% reduction resident utility cost savings requirement (see BUILD Program Guidelines Chap. 2 Sec A(6) Modeled Resident Utility Costs, pgs. 8-9)

When the documents are ready for upload, either drag and drop the files into the upload box or press the Select button and choose the file from the device.

To complete the Final Payment section, please refer to [Section 3.5.2 Progress Payment](#) as then instructions are the same.

Click the Submit Claim button, once the Final Payment section is completed and is accurate.

BUILD Program Attestations

I, the applicant, attest to the following:

☐

The project is complete and has the appropriate certificate of occupancy required by the BUILD Program.

☐

The Step 3 Project Completion payment will reimburse eligible costs. Specifically, that the applicant has incurred costs in an amount greater than or equal to the final payment or otherwise actual eligible costs, whichever is less.

☐

The applicant understands that applications are accepted on a first-come, first-served basis, and that incentive reservations will be approved in accordance with funding amounts attributed to each specific gas utility territory while funds are available.

☐

The information being provided is true and correct and that the proposed project meets the requirements of the BUILD Guidelines and to the accuracy and completeness of information submitted.

☐

The applicant is responsible for any omissions or errors that may result in delay or denial of the payment claim.

☐

The Applicant is responsible for any federal, state, and local taxes associated with the receipt of progress payments. Applicants who assign their progress payments to third parties will remain responsible for ensuring compliance with any other legal requirements associated with the reservation payment, including any tax consequences, despite the payment's assignment.

☐

The CEC or its authorized agents may audit any applicant to verify the accuracy of any reservation or claim information. An audit may be performed at any time within three (3) years after applicant's final incentive payment.

I, the undersigned, am authorized to legally bind the Applicant and hereby certify, under penalty of perjury, the information provided during this claims process is accurate.
