EXHIBIT D
Greenhouse Gas Reduction Fund
Special Terms and Conditions

1. *GRANT AGREEMENT*

This project is being funded in whole or in part by California Climate Investments[1] and is subject to the laws enacted for the administration of auction proceeds deposited into the Greenhouse Gas Reduction Fund (GGRF), including without limitation: SB 109 (Chapter 36, Statutes of 2024) and any amendments to this bill; Health and Safety Code section 39710 et. seq.; and Government Code sections 16428.8 – 16428.95, including any amendments to these sections.

2. *DOCUMENTS INCORPORATED BY REFERENCE*

The documents below are incorporated by reference into this Agreement. These terms and conditions will govern in the event of a conflict with the documents below.

California Air Resources Board Documents

California Air Resources Board, Funding Guidelines for Agencies that Administer California Climate Investments at California Climate Investments Tools — California Climate Investments: www.caclimateinvestments.ca.gov/tools.

3. *PRODUCTS*

a. Acknowledgement of California Climate Investments

Recipients shall include the California Climate Investments funding boilerplate language and logo on all outreach and public facing materials including but not limited to press releases, media advisories, printed collateral, event invitations and project/program websites. The boilerplate language is:

> **The California Energy Commission's Zero-Emission Vehicle Infrastructure Program is part of California Climate Investments which uses billions of Cap-and-Invest dollars to fund projects that reduce harmful emissions, protect public health, strengthen local economies, and support natural environments. With a strong focus on communities most impacted by pollution and limited access to resources, California Climate Investments helps build a more equitable and sustainable future.**

---

1 California Climate Investments is a statewide initiative that uses billions of Cap-and-Invest dollars to fund projects that reduce harmful emissions, protect public health, strengthen local economies, and support natural environments.

Guidance on California Climate Investment logo usage, signage guidelines, and high-resolution files are contained in a style guide available at: http://www.caclimateinvestments.ca.gov/logo-graphics-request/.

a. Recipients shall flow down the acknowledgement requirements for CCI above to all subrecipients and vendors as appropriate.

4. *GREENHOUSE GAS REDUCTION FUND REQUIREMENTS*

a. Reporting

Recipient shall provide program metrics, data, expenditures, investment benefits, and project outcomes reports to the Energy Commission on a schedule and in a format using the data methodology provided by the CAM consistent with the specific reporting requirements in CARB guidance and methodologies available at California Climate Investments Tools — California Climate Investments: www.caclimateinvestments.ca.gov/tools. Information to be reported may include, but is not limited to:

(1) Greenhouse Gas Emission Reductions

(a) Estimated total project greenhouse gas emission reductions, or the input data required to calculate these estimates.

(b) Estimated total project air pollutant reductions, or the input data required to calculate these estimates.

(c) Estimated results of other co-benefits, such as energy use reductions, energy cost saving, etc., or the input data required to calculate these estimates.

(2) Qualitative information associated with other environmental, social, economic, or public health co-benefits, if applicable.

(3) Benefits to Priority Populations

Data related to identified priority populations, identified community need(s), how the project meets the need(s), and a qualitative description of the benefit that the project provides to priority populations.

(4) Employment Outcomes (Jobs)

Data related to the number of jobs provided, average wages, work hours, the number of people who completed job training or received job training credentials, and other employment outcome data.
