Respondents Masco Corporation and EnergySense, Inc. (hereinafter referred to as “Masco” or “EnergySense,” respectively, or “respondents”) hereby respond to the complaints filed by California Living & Energy and Duct Testers, Inc. (hereinafter “complainants”) as follows:

1. Respondents admit that EnergySense is a subsidiary of Masco Corporation, but deny that the relationship violates the relevant California Code of Regulations, including but not limited to Title 20, sections 1670-1673.

2. Respondents deny that Masco, EnergySense, and/or any other Masco subsidiary are in violation of California Code of Regulations, Title 20, sections 1670-1673 and Title 24, Chapter 7 of the ACM Manual.

3. Respondents deny that Masco and/or its subsidiaries violated the requirements of the 2005 Residential ACM Manual as alleged in part III, paragraphs A through F of the complaint filed by California Living & Energy (respondents understand that Duct Testers, Inc. has simply joined in the complaint filed by California Living & Energy; accordingly, respondents’ answer does not specifically address the joinder letter filed by Duct Testers, Inc.).

To the extent not specifically admitted or denied above, respondents hereby deny each and every remaining material allegation alleged in the complaint.
AFFIRMATIVE DEFENSES

First Affirmative Defense:

The complainants are entitled to no relief under the facts alleged because the complaint fails to allege facts sufficient to constitute a cause of action.

Second Affirmative Defense:

The complaint is without merit because all of respondents' alleged actions were lawful and in full compliance with all applicable codes and statutes, including but not limited to California Code of Regulations, Title 20, Section 1673.

Specifically, to the extent EnergySense, Inc. has inspected and/or tested installation work performed by other Masco companies, it has done so within the parameters of the relevant statutes. Section 1673(i) requires a rater to be an "independent entity" from the builder or contractor. An "independent entity" is defined as "having no financial interest in, and not advocating or recommending the use of any product or service as a means of gaining increased business with," a builder or subcontract installer. Cal. Code of Regs. § 1671. A "financial interest" is defined as "an ownership interest, debt agreement, or employer/employee relationship. . ." Cal. Code of Regs. § 1671.

EnergySense has performed no inspection or testing work directly for Masco Corporation. Rather, EnergySense has inspected and tested installation work for builders through contracts it has entered into with separate Masco subsidiaries, Builder Services Group, Inc. ("BSG"), American National Services, Inc. ("ANS"), and Masco Contractor Services of California, Inc. ("MCS of CA"). Consistent with the terms of the relevant statutes, EnergySense has no financial interest in and operates independently of those Masco subsidiaries:

- There is no direct or indirect ownership or subsidiary relationship between EnergySense and BSG, ANS or MCS of CA.
- EnergySense has no debt agreements with BSG, ANS or MCS of CA.
- EnergySense shares no employees with BSG, ANS or MCS of CA.
- Although EnergySense, BSG, ANS and MCS of CA are fully owned by Masco Corporation, the parent company is a holding company that provides
administrative and high-level corporate governance support.

Moreover, the business relationship between EnergySense and the other Masco subsidiaries is governed by contract and not by Masco Corporation:

- The contracts EnergySense has entered into with BSG, ANS and MCS of CA establish EnergySense as an independent contractor.

- Under the terms of the contracts, EnergySense is accountable directly to the builders for the services it provides.

- The contracts between EnergySense and each of the other three Masco subsidiaries are not exclusive and provide that neither company is obligated to use the other.

- The contracts prohibit EnergySense from recommending or referring work to the other three Masco subsidiaries.

Finally, the thoroughness, accuracy and independence of the rating services performed by EnergySense are demonstrated and assured by:

- The EnergySense raters’ accountability to HERS provider California Home Energy Efficiency Rating Services ("CHEERS") to maintain their individual certifications.

- Routine monitoring by CHEERS of the testing and inspection results of EnergySense’s raters.

- The actions taken by EnergySense raters to reject installation work performed by other Masco subsidiaries that failed to meet Title 24 standards.

Third Affirmative Defense:

The complaint is without merit because the actions of the raters employed by EnergySense were lawful and in full compliance with all applicable codes and statutes, including but not limited to California Code of Regulations, Title 20, Section 1673. Consistent with the relevant statutes, the raters are independent entities from the builders and from contractors such as BSG, ANS or MCS of CA. The raters have no financial interest in the builders or contractors, including subcontractor installers, and do not advocate the use of any
product or service as a means of gaining increased business with a builder or contractor.

Fourth Affirmative Defense:

Respondents currently have insufficient knowledge or information on which to form a belief as to whether they may have additional, as yet unstated, defenses available. Respondents reserve the right to assert additional defenses in the event that they would be appropriate.

REQUEST FOR HEARING

Pursuant to Article IV, Title 20, Section 1234 of the California Code of Regulations, and in order to protect respondents’ due process rights, respondents hereby request a hearing before the Commission of sufficient duration to allow respondents ample opportunity to present and cross-examine witnesses. In order to adequately prepare for the hearing, respondents respectfully request that the hearing commence on or after October 6, 2008. Respondents anticipate the hearing will last several days.

PRAYER FOR RELIEF

WHEREFORE, respondents pray that the Commission:

1. Deny complainants’ complaint;

2. Dismiss the present action with prejudice; and

3. Grant such other and further relief as the Commission deems just and proper.
